MILLSTONE, nunca un brillo desgastado ha sido tan elegante

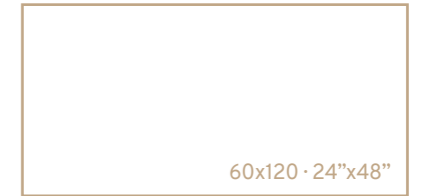

Partiendo de la piedra natural conocida como "Rappolano" extraída de las canteras de Siena, se ha recodificado en una suerte de piedra desgastada suavizando sus contrastes y llevándola a tonos neutros, haciéndola combinable con gran variedad de tonalidades. Su nombre traducido "Piedra de molino" hace referencia a este desgaste. En el acabado destacan unos brillos metálicos que añaden profundidad al conjunto. Estos destellos interactúan con la luz variando en función de su incidencia y del movimiento del observador.

MILLSTONE, never an aged glitter has been so elegant

Starting from the natural stone known as "Rappolano" extracted from the quarries in Siena, it has been recoded into a kind of aged stone, softening its contrasts and taking it to neutral tones, making it combinable with a wide variety of shades. Its name itself, "millstone" refers to the an aged stone. In the finish of the Millstone, a metallic glitter stands out that add depth to the whole piece. These flashes interact with light, varying according to their incidence and the movement of the observer.
