PORCELANOSA

PORCELANOSA Grupo es un referente en la fabricación de pavimentos cerámicos, tanto por sus avanzadas técnicas de producción como por la calidad y versatilidad de sus diseños. Abanderada en el dictado de las nuevas tendencias, sus colecciones cerámicas ponen de manifiesto una inspiración profunda en los materiales naturales, sin renunciar a las propiedades y características intrínsecas de la cerámica.

Colecciones que reproducen la textura del cemento, más versátiles y fáciles de instalar que los pavimentos continuos, que además incluyen series con un alto valor ecológico por su elevada concentración en materiales reciclados.

Su extensa oferta de piedras cerámicas contempla la amplia diversidad que podemos encontrar en nuestro entorno: granitos, calizas, cuarcitas, basaltos..., con especial atención a las pizarras cerámicas que emulan fielmente la riqueza y variedad tonal de estas rocas metamórficas; y las refinadas reproducciones de selectos mármoles que impregnan de elegante distinción cada ambiente.

Las piezas monocolor presentan superficies y texturas originales únicas con tonos sobrios en uniformidad cromática.

La seguridad de uso en pavimentos exteriores y ambientes interiores en zonas húmedas debe contemplar requisitos específicos de resistencia al deslizamiento, para adecuarse a las normas o leyes en cada situación y país.

PORCELANOSA Group is a leading reference in the ceramic floor sector, both for its advanced production techniques and the quality and versatility of its designs. With a markedly trendsetting approach, its ceramic tile collections reveal an inspiration firmly grounded in natural materials, without relinquishing the intrinsic properties and characteristics of ceramic tiles.

Collections that reproduce the texture of cement, which are more versatile and easier to install than continuous flooring, also including eco-friendly ranges thanks to their high concentration of recycled materials.

Its extensive range of stone effect tiles includes the whole range of materials we find in our surroundings, such as granite, sandstone, basalt and quartzites, with a special focus on slate-effect tiles that faithfully reproduce all of the tonal depth and variety of these metamorphic rocks, and refined reproductions of select marbles, that bring an air of sophisticated elegance to any setting.

The single colour tiles offer unique, original surfaces and textures in muted, uniform shades.

For flooring outdoors or in indoor wet areas to provide a safe grip, certain slip resistance criteria must be met in accordance with the standards or legislation in force in each particular country or governing each specific situation.

PORCELANOSA Integra los objetivos estratégicos en sus sistemas de gestión y producción de forma transversal, de manera que la implementación de procesos respetuosos con el medio ambiente no se limita a acciones puntuales, sino que forma parte de su "know-how" en su conjunto. Ir más allá de las exigencias concretas de la legislación vigente en cada momento para la reducción del impacto de la actividad industrial sobre el entorno natural es, además, una de las actitudes firmemente asentadas.

Por su parte, los procesos de diseño, fabricación, distribución y comercialización de pavimentos y revestimientos cerámicos disponen de la certificación medioambiental ISO 14001 desde 2004.

Como consecuencia, el cien por cien de los residuos procedentes de las baldosas cerámicas fabricadas que se generan en los rechazos realizados por el control de calidad se reincorpora al proceso de fabricación.

Así mismo, PORCELANOSA ha desarrollado su serie Forest Ecologic Ceramic cuyo contenido en material reciclado pre-consumer es superior al 95% en masa. La serie Forest puede emitir hasta un 40% menos de CO₂ en su producción con respecto a materiales de la competencia de similares características fabricados por la vía convencional.

Además todos los modelos fabricados por PORCELANOSA, poseen etiqueta ecológica del tipo III en forma de declaración ambiental de producto (DAPc) conforme a las normas ISO 14025 y UNE EN 15804.

PORCELANOSA integrate the strategic objectives in their management and production systems in a transverse manner, so that the implementation of processes that are respectful towards the environment are not limited to specific actions, but instead from a part of its know-how as a whole. Going beyond the specific requirements of current legislation for reducing the impact of industrial activity on the environment is also one their most firmly rooted attitudes.

In turn, the processes involved in the design, manufacture, distribution and commercialisation of ceramic wall and floor tiles have had ISO 14001 environmental certification since 2004.

As a result, all of the residues from the manufacturing of ceramic tiles as well as elements rejected by quality control are reincorporated into the manufacturing process.

PORCELANOSA has also developed its Forest Ecologic Ceramic series, with a content of more than 95% pre-consumer recycled material. The Forest series can emit up to 40% less CO₂ in its production with respect to similar materials of the competition that are manufactured by conventional means.

Also, all the items manufactured by PORCELANOSA, has an ecolabel of type III as environmental product declaration (DAPc) according to the standards ISO 14025 e ISO 21930.

Par-Ker, el parquet cerámico de PORCELANOSA es el producto más ecológico ya que contribuye a preservar nuestros bosques y contribuye a mantener el deteriorado equilibrio medioambiental en la Tierra del siglo XXI.

Soporta sin alteraciones la radiación solar, el uso, y el paso del tiempo, reinventando la belleza de la madera.

Es ignífugo y, por tanto, resiste la acción del fuego sin propagarlo. Su superficie, con posibilidad de acabado antideslizante, lo convierte además en un material óptimo para la utilización en zonas húmedas y exteriores.

Repele el agua y mantiene en su presencia tanto la estructura formal de las piezas, como el aspecto y capacidad de resistencia.

Par-Ker, the ceramic parquet by PORCELANOSA, stands out for its eco-friendly qualities, since it contributes toward the conservation of our woodlands and the restoration of the environmental balance of our 21st century planet.

Not only can it withstand solar rays, wear and tear and the passing of time, but it also evokes all the beauty of real wood.

Par-Ker is made of a fire resistant material. Available in a non-slip version, this also makes it the perfect choice for use in wet or outdoor areas.

Par-Ker repels water. Its structure, visual appeal and resistance are unaffected by moisture.

Sólido y resistente, el cemento ha sido desde siempre un elemento clave en la construcción, principalmente como elemento de unión.

La Serie Cemento reproduce la consistencia de una superficie cementosa en piezas cerámicas de gran formato, más sencillas y cómodas de instalar, y abarcando un amplio espectro de tonalidades entre sus acabados.

Cement with its innate qualities of solidness and resistance has always been a key material of any construction.

The Cement Series reproduces the appearance of a cement surface in a large format tile making installation simpler and easier. This series boasts a wide spectrum of different shades to its finishes.

HIGHKER, la cerámica Premium de gran formato.

Los avances tecnológicos, el I+D+i y los nuevos modelos urbanísticos basados en la arquitectura inclusiva y la sostenibilidad han propiciado la creación de HIGHKER, la cerámica Premium de gran formato que ha desarrollado Porcelanosa. Inspirados en materiales naturales como piedra, mármol y granito, así como compuestos industriales como el cemento, cada uno de estos pavimentos cerámicos destacan por su resistencia, entereza y consistencia.

HIGHKER; a grandes formatos, grandes ideas.

HIGHKER, the Premium large-format ceramics.

Technological developments, R&D and new urban models based on inclusive architecture and sustainability have led to the creation of HIGHKER, the large-format Premium ceramics developed by Porcelanosa. Inspired by natural materials such as stone, marble and granite, as well as industrial compounds such as cement, each of these ceramic floors stands out for its strength, integrity and consistency.

HIGHKER: Large formats, big ideas.

La piedra es quizás el material de construcción más antiguo que se conoce, utilizado desde la era prehistórica tanto como elemento constructivo como decorativo.

Las piedras cerámicas de PORCELANOSA presentan la rica variedad que se puede hallar actualmente en las canteras: granitos, calizas, basaltos..., manteniendo las propiedades de dureza y resistencia extraordinarias de este material, con las ventajas económicas y de eliminación de humedades que ofrecen los pavimentos cerámicos.

Stone is probably the oldest-known building material. It has been used since prehistoric times for both decorative and building purposes.

The PORCELANOSA stone series reproduces a rich variety of the natural stone found in quarries around the world: granites, lime stones, basalts... The tiles maintain the hardness and extraordinary resistance of these materials with important economic and reduced water absorptions advantages.

El mármol ha sido empleado desde la antigüedad como elemento de construcción en viviendas y edificios públicos. No en vano es una de las piedras más bellas y nobles aplicada a la construcción, capaz por sí misma de dotar de un ambiente exquisito y majestuoso a cada estancia.

No obstante, el mármol es un material que requiere de continuos cuidados para la conservación de su aspecto, y su alta porosidad provoca la fácil absorción de manchas.

Los Mármoles Cerámicos transmiten la nobleza de este material con las ventajas de la facilidad de limpieza y la nula absorción de manchas de un gres porcelánico.

Marble has long been used as a building material in private and public constructions. It is one of the most beautiful and noble of materials capable of transforming any space into a majestic area. However, to preserve its original features marble is a material which requires continual care and maintenance. Stains often appear due to its high moisture absorption.

The marble series replicate the beauty of this material whilst boasting the advantages of a porcelain tile with its ease of cleaning and maintenance and near-zero moisture absorption.

Los pavimentos cerámicos neutros presentan superficies y texturas originales, únicas, que no emulan ningún material preexistente en la naturaleza. Sus tonos sobrios, junto a la uniformidad cromática facilitan su integración en cualquier ambiente y la coordinación con el resto de elementos decorativos.

Tiles from the neutral series present original textures and surfaces that do not emulate any other material. The series' sober and uniform tones and colours facilitate their integration and coordination with all most any other decorative element.

Technical Tread Tiles

<p>Mate Matt</p>		<p>Acabado superficial de aspecto natural, no brillante. Natural, not shiny, surface finish.</p>
<p>Brillo Gloss</p>		<p>Acabado superficial brillante con un alto grado de reflexión a la luz. Shiny surface finish with a high degree of light reflection.</p>
<p>Destonificado Tone variations</p>		<p>Las series identificadas con este icono presentan un diseño general destonificado que puede requerir la conformación de paneles lo suficientemente representativos en número de piezas, como para poder apreciar el grado de variación tonal y de aspecto. Series marked with this icon have a high degree of shade variation. As a result, a board with a tiled surface might be needed to reflect true appearance and shade variation once laid.</p>
		<p>Aspecto uniforme - Uniform appearance</p>
		<p>Variación ligera - Slight variation</p>
		<p>Variación moderada - Moderate variation</p>
		<p>Variación aleatoria - Substantial variation</p>
<p>Rectificado Rectified</p>		<p>Nombre que recibe el acabado de aquellas baldosas mejoradas dimensionalmente tras el proceso de cocción. El mecanizado al que se somete realza igualmente la calidad estética del ambiente formado. Name given to the finish of tiles dimensionally improved after firing. The process enhances the aesthetic quality of the setting created.</p>
<p>Texturado Textured finish</p>		<p>Superficie con pequeños resaltes que proporcionan un acabado con relieve suave. Surface with small protrusions that provide a smooth relief finish.</p>
<p>Pulido Polished</p>		<p>Acabado brillante conseguido a través del mecanizado superficial de la etapa de cocción. The surface brightness is achieved during the firing process in the kiln.</p>
<p>Antislip Non slip</p>		<p>Textura superficial que minimiza el riesgo al deslizamiento. Acabados suaves que aportan seguridad al caminar. Surface texture which minimises the risk of slippage. Smooth finishes that guarantee safe steps.</p>
		<p>Fricción estática normal - Normal static friction</p>
		<p>Fricción estática alta - High static friction</p>
		<p>Fricción estática muy alta - Very high static friction</p>
<p>Direccionalidad Directionality</p>		<p>Observar la parte trasera de las piezas para su correcta colocación. Colocar las piezas de forma que las flechas apunten siempre hacia arriba. Please have a look the at the back side of the tile for a proper installation. Arrows should point. Up when fixing the tiles.</p>
<p>Tránsito peatonal Pedestrian traffic</p>		<p>Volumen de tráfico peatonal que puede soportar un material sin sufrir inestabilidad. Amount of pedestrian traffic a material can resist without structural failures.</p>
		<p>Ligero - Slight</p>
		<p>Moderado - Moderate</p>
		<p>Intenso - Hard</p>
<p>Porcelánico técnico Technic porcellanic</p>		<p>Baldosa con un alto grado de compactación, uniforme en aspecto desde el soporte cerámico hasta la decoración y un menor porcentaje de vidriado en la composición respecto a las baldosas convencionales. Tile with a high degree of compaction, uniform in appearance in the ceramic base as well as in the decoration on top and a lower percentage of glaze in the composition compared to conventional tiles.</p>
<p>STEX / RAF</p>		<p>Cerámica válida para suelos técnicos de exterior. Valid ceramic for outdoors technical floors.</p>
<p>Granilla técnica Technical grain</p>		<p>Aplicación superficial previa de granillas específicas para la serie Stonker, aplicadas con anterioridad a la cocción y que genera una superficie antideslizante con buena resistencia al desgaste. Previous surface application of specific granules for the Stonker series which is applied prior to the firing process generating a non-slip surface with a optimal wear resistance.</p>
<p>Especial para exterior Outdoor special</p>		<p>Cerámica ideal para suelos exteriores. Ideal ceramic for outdoors floors.</p>

<p>Highker</p>	<p>HIGHKER</p>
<p>Par-Ker</p>	<p>PAR-KER</p>
<p>Ston-ker</p>	<p>STON-KER</p>
<p>Nano-ker</p>	<p>NANO-KER</p>

Cerámica Premium de gran formato desarrollada Porcelanosa.
Inspirados en materiales naturales como piedra, mármol y granito, así como compuestos industriales como el cemento, cada uno de estos pavimentos cerámicos destacan por su resistencia, entereza y consistencia.

Large-format Premium Ceramics developed by Porcelanosa. Inspired by natural materials such as stone, marble and granite, as well as industrial compounds such as cement, each of these ceramic floors stands out for its strength, integrity and consistency.

Colección de porcelánicos que representan estéticamente las características del parquet.
Collection of porcelain tiles which represents the aesthetics of the parquet.

El gres porcelánico STON-KER® está concebido para su utilización en suelos y paredes, tanto interiores como exteriores, gracias a sus altas prestaciones técnicas, que le permiten soportar las condiciones atmosféricas más extremas, ofreciendo al mismo tiempo una alta resistencia al desgaste.

STON-KER® porcelain tiles are conceived for use on indoor or outdoor walls and floors, thanks to their high-performance properties. These allow them to withstand even the most extreme weather conditions, ensuring a high resistance to wear and tear. guarantee the most demanding areas.

Aplicación superficial de nanomateriales previa a la cocción y que aporta un acabado antideslizante de textura agradable al tacto.

Surface application of nanomaterials prior to the firing process which provides a non-slip finish with a gentle texture to the touch.

Valor medio del ángulo de caída
Total mean value of slip angle

6° ≤ Ángulos · Angle ≥ 10°	R9
10° ≤ Ángulos · Angle ≥ 19°	R10
19° ≤ Ángulos · Angle ≥ 27°	R11
27° ≤ Ángulos · Angle ≥ 35°	R12
35° ≤ Ángulos · Angle	R13

Resistencia al deslizamiento.
Slip resistance.

Muchos fabricantes europeos de suelos, usan ensayos del tipo de la rampa para clasificar sus productos en función del grado de deslizamiento. Estos ensayos se llevan a cabo generalmente, usando la norma alemana din 51130.

El método implica el uso de sujetos que caminan adelante y atrás a través de un suelo impregnado y utilizado como banco de ensayos en forma de rampa. El grado de inclinación de la rampa se va incrementando gradualmente hasta que el sujeto que está ensayando, resbala. El ángulo medio de inclinación al que el sujeto resbala, es utilizado para calcular el ángulo crítico de deslizamiento.

La norma din 51130 utiliza unas botas de seguridad según norma en 345 y aceite de motor como sustancia que impregne la superficie a ensayar.

Many european flooring manufacturers use tests like the ramp test to rate their products according to their slip resistance. These tests are generally conducted using the german standard, din 51130.

With this method, a person walks backwards and forwards on an impregnated ramp-type floor used as a test bench. The angle of the ramp is gradually increased until the person slips. The average angle at which the person slips, is used to calculate the critical angle of slip.

Din 51130 uses approved safety boots according to standard en 345 and engine oil to impregnate the test surface. Standard, din 51130.

Resistencia al deslizamiento RD
RD Slip Resistance

RD ≤ 15	SRV clas 0
15 < RD ≤ 35	SRV clas 1
35 < RD ≤ 45	SRV clas 2
RD > 45	SRV clas 3

"CTE" Código Técnico de la Edificación.
(CTE) Spanish Building Code.

El cte, código técnico de la edificación, dentro de su documento básico de seguridad de utilización 1 "db su 1 - seguridad frente al riesgo de caídas", define los requisitos que debe cumplir un suelo para poder ser utilizado como pavimento de los edificios o zonas de uso sanitario, docente, comercial, administrativo, aparcamiento y pública concurrencia (excluidas las zonas de uso restringido). Para ello, el pavimento deberá cumplir con un valor mínimo al deslizamiento "RD".

El valor de resistencia al deslizamiento "rd", se determina mediante el ensayo del péndulo descrito en el anexo a de la norma une-env 12633: 2003.

La tabla establece la clasificación de los suelos según su resbaladidad:

"Safety of use" basic document 1 (db su 1 – preventing falls) of the spanish building code (the cte in spanish) defines the requirements that a floor covering must meet in buildings or areas used for healthrelated, educational, commercial, administrative or public purposes or for parking (excluding areas of restricted use). To comply, the flooring must achieve a minimum slip resistance (RD) value.

The slip resistance (rd) value is determined using the pendulum test described in appendix a of standard une-env 12633: 2003.

The table shows the rating system for flooring, depending on its slip resistance:

P-2 02/2020 V2

El contenido de este catálogo está protegido por la Ley de Propiedad Intelectual, Real Decreto Legislativo 1/1996.

Cualquier reproducción del mismo, en parte o en su totalidad, sin autorización expresa de **PORCELANOSA Grupo** puede ser sancionada conforme el Código Penal.

PORCELANOSA se reserva el derecho de modificar y/o suprimir ciertos modelos expuestos en este catálogo sin previo aviso.

Los colores de las piezas pueden presentar ligeras diferencias respecto a los originales.

Los ambientes que se muestran en este catálogo son sugerencias decorativas de carácter publicitario, debiéndose utilizar en la instalación real las instrucciones de colocación editadas por **PORCELANOSA**.

2020 - PORCELANOSA
P-2 02/2020 V2

The contents of this catalogue are protected by virtue of the Spanish Intellectual Property Act, Royal Legislative Decree 1/1996.

The partial or total reproduction of this catalogue, without the express authorisation of **PORCELANOSA Grupo** is punishable under the Spanish Criminal Code.

PORCELANOSA reserves the right to modify and/or discontinue certain models displayed in this catalogue.

The colours of pieces displayed herein may differ slightly from originals.

The settings shown in this catalogue are design proposals for advertising purposes. In real situations in which the tiles are laid, the installations instructions published by **PORCELANOSA** should be followed.
