Que las cocinas negras son tendencia es un hecho incontestable. Para mantener la luminosidad de estas cocinas combinamos nuestro Belvedere Black con una cálida madera, o bien elegimos una combinación cromática que siempre es una apuesta ganadora: blanco y negro.

Trendy black kitchen concept is a fact of life, to maintain the brightness of these kitchens we combine our model Belvedere Black with a warm wood, or we choose a chromatic combination which is always a winning bet: black & white.

ASCALE BY TAU TPBtech

LA NUEVA GENERACIÓN DE ENCIMERAS
THE NEW GENERATION OF COUNTERTOPS

Superficies ASCALE by TAU con Tecnología TPB tech®

Ergonomía y confort son dos conceptos estrechamente relacionados con la seguridad y funcionalidad de la cocina. Consciente de ello y en la constante búsqueda de soluciones que mejoren la calidad de vida de las personas, ASCALE byTAU ha firmado un convenio con la compañía tecnológica TPB TECH®, que le permite ofrecer en exclusiva en nuestro país una colección de encimeras en las que se puede cocinar directamente sobre la encimera porcelánica.

La tecnología creada y patentada por TPB TECH®, permite integrar los inductores y los mandos bajo las superficies de ASCALE by TAU que, por su parte, aportan las máximas prestaciones técnicas de resistencia a los impactos y a las altas temperaturas, así como una asombrosa facilidad de uso y de limpieza.

La alianza entre la tecnología de TPB TECH® y el diseño y calidad de las superficies ASCALE by TAU, permite hacer desaparecer el clásico cristal de vitrocerámica, unificando la zona de cocción y de trabajo. Una revolución en el concepto de la cocina, que hace posible cortar, cocinar, comer y disfrutar encima de la encimera. Un sistema que permite usar la encimera porcelánica de ASCALE by TAU, armonizando el placer culinario con el entretenimiento, la actividad y la funcionalidad.

ASCALE by TAU incorpora, a su nueva colección TPB tech®, todas sus referencias de 6 mm en acabados Matt y Soft Matt.

ASCALE by TAU surfaces with TPB tech® technology.

Ergonomics and comfort are two concepts closely related with the safety and functionality of the kitchen. Aware of this and in the constant search of solutions to improve the quality of people's life, ASCALE by TAU has signed an agreement with the technologic company TPB TECH®, that allows us to offer exclusively in our country, a countertop collection enabling us to cook directly on the porcelain surface.

The technology created and patented by TPB TECH®, allows to integrate inductors and controls under the ASCALE by TAU surfaces, providing the maximum technical features for impact resistance and high temperatures, as well as an amazing ease of use and cleanliness.

The union between TPB TECH technology and the design and quality of the ASCALE by TAU surfaces, allow to eliminate the classic glass-ceramic hob, unifying the cooking and work area. A revolution in the kitchen concept, that makes possible to cut, cook, eat and enjoy the countertop. A system that allows to use the Ascale by Tau kitchen surface, harmonizing culinary pleasure with entertainment, activity and functionality.

ASCALE by TAU incorporates, in the new TPB tech® collection, all its 6mm references in Matt and Soft Matt finishes.□

Dilatación térmica lineal Linear thermal expansion	ISO 10545-8	Método de ensayo disponible Test method available	<7,0 x 10 ⁻⁶ °C ⁻¹
Resistencia al choque térmico Thermal shock resistance	ISO 10545-9	Método de ensayo disponible Test method available	Resiste Resists
Dilatación a la humedad Moisture expansion	ISO 10545-10	Valor declarado Declared value	0,01% (0,1 mm)
Resistencia a la helada / Frost resistance	ISO 10545-12	Método de ensayo disponible Test method available	Resiste Resists
Resistencia química Chemical resistance	Ácidos y bases Acids and bases Productos de limpieza y reactivos de piscinas Cleaning products and pool reactive agents	ISO 10545-13	Método de ensayo disponible Test method available Mínimo UB Minimum UB Cumple la norma Conforms to standard Clase UA Class UA
Resistencia a las manchas Resistance to stains	ISO 10545-14	Mínimo clase 3 Minimum class 3	Mate Matt: Clase 5 Pulido Polished: Clase 3-4
Cesión de cadmio y plomo en mg/dm ² Cadmium and lead release in mg/dm ²	ISO 10545-15	Método de ensayo disponible Test method available	Ausentes None
