L'impegno per la salvaguardia dell'ambiente

The commitment to protecting the environment

RIUTILIZZO DEL 100% DEGLI SCARTI CRUDI

Il 100% degli scarti crudi sono riutilizzati nel ciclo produttivo, riducendo così l'estrazione di materie prime da cava e contribuendo in modo sensibile alla salvaguardia delle risorse naturali.

100% REUSE OF UNFIRED TILES

Crude waste generated by the process is reintegrated in the production cycle with no costs for the environment. This contributes to the safeguard of natural resources.

RIUTILIZZO/RICICLO DEL 100% DEGLI SCARTI COTTI

Gli scarti cotti sono completamente riutilizzati nel ciclo produttivo. Inoltre, a fine vita, le piastrelle Panaria possono essere riciclate come inerti per sottofondi di strade ed edifici, riducendo così l'uso di ghiaia ed inerti naturali comunemente utilizzati in edilizia.

100% REUSE/RECYCLING OF THE INDUSTRIAL WASTE - FIRED TILES

The waste-fired tiles are fully reused in the production cycle. In addition, at the end of life, the tiles Panaria can be recycled as materials for substrates for roads and buildings, thus reducing the use of gravel and natural aggregates commonly used in building.

RICICLO DEL 100% DEI RIFIUTI NON CERAMICI

Il 100% dei rifiuti non ceramici derivanti dalle attività produttive è gestito in modo differenziato e riciclato in altri processi produttivi.

100% OF NON CERAMIC WASTE

Is differentiated and recycled in other production cycles.

RIUTILIZZO DEL 100% DELLE ACQUE DI PROCESSO

Per salvaguardare questa importante risorsa naturale Panaria riutilizza il 100% delle acque derivanti dal ciclo di produzione, riducendo fino all'80% il fabbisogno idrico degli stabilimenti.

100% WATER RECYCLING

The water used in the production process is 100% recycled. The water demand is reduced up to 80% by this mean. No industrial water is discharged in the ecosystem.

MINIME EMISSIONI IN ATMOSFERA

L'uso delle migliori tecnologie produttive permette di ridurre al minimo le emissioni in atmosfera, con livelli 10 volte inferiori ai severi limiti ambientali richiesti della legislazione italiana.

LOW EMISSIONS IN THE ATMOSPHERE

Panaria complies strictly to Italian Standards with a very small amount of gas emissions in the atmosphere. The high quality of the technology used keeps our emissions 10 times inferior the allowed limits.

FORTE RIDUZIONE DEI CONSUMI ENERGETICI

L'uso di tecnologie all'avanguardia e di soluzioni impiantistiche ottimali riducono sensibilmente l'uso di gas metano nel processo produttivo.

MATERIALE IDEALE PER EDIFICI A BASSO CONSUMO ENERGETICO

ZERO.3 è ideale per la costruzione di edifici a bassissimo consumo energetico; queste sono le applicazioni nelle quali ZERO.3 è il materiale ottimale:

- **Finitura di pavimenti e rivestimenti**
ZERO.3 è un prodotto realizzato con materie prime naturali che non contengono sostanze sintetiche, che offre prestazioni di sicurezza (resistenza al fuoco), pulibilità e durabilità decisamente superiori rispetto al legno e alla moquette.
- **Impianti di riscaldamento a pavimento**
ZERO.3 offre prestazioni di eccellenza poiché favorisce l'ottimizzazione del sistema completo con temperature più basse dell'acqua e di conseguenza il risparmio energetico dell'intero impianto (grazie al suo basso spessore e alla conducibilità termica superiore rispetto al legno che è materiale isolante).
- **Finiture superficiali di rivestimenti a cappotto e facciate ventilate**

L'utilizzo di ZERO.3 è indicato per la sua leggerezza,

Panaria è membro del U.S. Green Building Council e del Green Building Council ITALIA, organizzazioni che promuovono la realizzazione di edifici ed opere nel rispetto dell'ambiente, della salute e del benessere delle persone che ci vivono e lavorano. LEED V4 nasce da U.S. Green Building Council per offrire a progettisti, architetti e costruttori un nuovo strumento per realizzare edifici secondo standard più esigenti in termini di sostenibilità, salubrità e vivibilità. Anche per i materiali da costruzione, tra cui le piastrelle di ceramica, vengono richiesti requisiti più severi e più completi, tra cui anche la Dichiarazione Ambientale EPD.

Le schede LEED delle serie Panaria sono disponibili su richiesta, sia secondo il protocollo LEED V4 che secondo i protocolli del GBC Italia.

Panaria is a member of the U.S. Green Building Council and of the Green Building Council ITALIA. These organizations promote the construction of buildings and other works which respect the environment as well as the health and well-being of the people who live and work within them.

LEED V4 was created by the U.S. Green Building Council to provide designers, architects, and builders with a new tool for the construction of buildings that adhere to more elevated standards of sustainability, health, and liveability.

More stringent and thorough requisites are required of building materials, like ceramic tiles, including the Environmental Product Declaration (EPD).

The LEED data sheets for Panaria are available upon request, according to both the LEED V4 and GBC Italia protocols.

EPD - DICHIARAZIONE AMBIENTALE DI PRODOTTO

EPD – Environmental Product Declaration / DEP - Déclaration Environnementale Produit / EPD - Umwelt-Produktdeklaration

La Dichiarazione Ambientale di Prodotto (EPD) comunica in modo trasparente le prestazioni ambientali del gres porcellanato Panaria basandosi sull'analisi del ciclo di vita (LCA). Si tratta di una EPD media di settore, certificata nell'ottobre 2016 da un Ente indipendente di terza parte secondo regole ufficiali (PCR), richiesta dai principali sistemi di certificazione degli edifici quali **LEED** (internazionale), **BREEAM** (Inghilterra), **HQE** (Francia) e **DGNB** (Germania), nonché in schemi legislativi in **Italia** (requisiti per appalti pubblici sostenibili). E' una certificazione volontaria, che valorizza ancor più i materiali Panaria perché prodotti secondo i migliori standard di sostenibilità e responsabilità.

*The Environmental Product Declaration (EPD) is a transparency tool that communicates the environmental performances of Panaria porcelain tile through a Life Cycle Assessment (LCA). This is a Sector-wide EPD, certified in October 2016 by an independent third party according to official guidelines (PCR), requested by the primary building certification systems such as **LEED** (international), **BREEAM** (England), **HQE** (France), and **DGNB** (Germany), as well as the legislative frameworks in **Italy** (requisites for sustainable public contracts). It is a voluntary certification that gives additional value to Panaria products because they are manufactured according to the highest standards of sustainability and responsibility.*

*La Déclaration Environnementale Produit (DEP) communique de manière transparente les performances environnementales du grès cérame Panaria en se basant sur l'analyse du cycle de vie (ACV). Il s'agit d'une DEP par secteur, certifiée en octobre 2016 par une Autorité indépendante de tierce partie, selon les normes officielles (Règles des Catégories de Produits) requises par les principaux systèmes de certification des bâtiments tels que **LEED** (pour l'international), **BREEAM** (Angleterre), **HQE** (France) et **DGNB** (Allemagne), et par les cadres législatifs prévus en **Italie** (conditions pour participer aux marchés publics durables). Cette certification est une démarche volontaire, et vise à apporter une valeur supplémentaire aux matériaux Panaria, fabriqués de manière responsable et selon les meilleurs standards écologiques.*

*Die Umwelt-Produktdeklaration (EPD) teilt in einer transparenten Art und Weise die Umweltleistung von Feinsteinzeug Panaria auf der Grundlage der "Lebenszyklusanalyse" (LCA) mit. Es handelt sich um eine branchenweite EPD, zertifiziert im Oktober 2016 durch eine unabhängige dritte Partei nach offiziellen Regeln (PCR), die von den wichtigsten Zertifizierungssystemen für Gebäude, wie **LEED** (International), **BREEAM** (England), **HQE** (Frankreich) und **DGNB** (Deutschland), sowie in Gesetzgebungsregelungen in **Italien** (Anforderungen für nachhaltige öffentliche Beschaffung) verlangt wird. Es ist eine freiwillige Zertifizierung, die die Materialien Panaria Produkte weiter aufwertet, da sie nach den höchsten Standards der Nachhaltigkeit und Verantwortung produziert werden.*

Certificazioni ambientali EMAS dei siti produttivi

EMAS Approved Environmental Management System of production sites. / Umweltzertifizierung EMAS der produktionsstätten / Système de Management environnemental Certificat EMAS des sites de production

Il sistema comunitario di ecogestione ed audit EMAS è lo strumento con cui l'Unione Europea promuove il miglioramento continuo delle prestazioni ambientali delle organizzazioni - rif. Regolamenti (CE) 1221/2009 e (UE) 2017/1505 del Parlamento Europeo e del Consiglio. Panariagroup Industrie Ceramiche S.p.A. ha ottenuto la registrazione EMAS per tutti i suoi siti produttivi di Toano (RE) (N. registrazione I-000239), Finale Emilia (MO) (N. registrazione I-000309), Fiorano Modenese (MO) (N. registrazione I-000401) e Ilhavo/Aveiro (Portogallo) (N. registrazione PT-000097).

Questa registrazione riveste una grande importanza, perché impone la creazione di un vero Sistema di gestione Ambientale basato sul continuo miglioramento delle proprie prestazioni ambientali. Il sistema si basa sulla creazione di un rapporto di collaborazione e fiducia con le istituzioni del territorio (Enti, Autorità, Associazioni, Rappresentanze Sindacali, Scuole, Stampa) e con il pubblico, ed è prevista la partecipazione attiva di tutti i dipendenti. La Dichiarazione Ambientale è il documento finale che descrive gli aspetti ambientali e di sicurezza sul lavoro, le prestazioni ambientali del sito e gli obiettivi ambientali che l'Azienda si impone di raggiungere nell'ottica del miglioramento continuo. La dichiarazione è convalidata da un Verificatore Ambientale Accreditato a seguito verifiche ispettive (audit) eseguite in stabilimento. Panaria è tra le pochissime aziende ceramiche ad avere la registrazione EMAS, che, insieme alla Ecolabel ed alla certificazione qualità ISO 14001, testimonia la massima attenzione e sensibilità del management alle questioni etiche, ambientali, di sicurezza e qualità.

The Community Eco-Management and Audit Scheme (EMAS) is the tool through which the European Union promotes continuous improvement of the environmental performance of organizations - ref. Regulations (CE) 1221/2009 and (UE) 2017/1505 of the European Parliament and Council. Panariagroup Industrie Ceramiche S.p.A. has obtained EMAS Registration for all its production sites: Finale Emilia (MO) (registration N° I-000309), Toano (RE) (registration N° I-000239), Fiorano Modenese (MO) (registration N° I-000401) and Ilhavo/Aveiro (Portugal) (registration N° PT-000097).

This registration is of major importance, since it requires a proper Environmental Management System to be created, based on the continual improvement of environmental performance within organisations. The scheme is based on the creation of an open dialogue with local institutions (Agencies, Authorities, Associations, Trade Union Representatives, Schools, Press) and with the public, and it is expected that all employees will play an active part. The Environmental Statement is the end document that describes the environmental and safety aspects

in the workplace, the environmental performance of the site and the environmental targets that the Company sets itself within the framework of continual improvement. The statement is validated by an Accredited Environmental Verifier, following audits carried out in the plant. Panaria is one of the very few ceramics companies to have EMAS registration which, together with the Ecolabel and ISO 14001 quality certification, bear witness to the management's utmost commitment and readiness to engage with the ethical, environmental, safety and quality issues.

Das Gemeinschaftssystem für Umweltmanagement und Umweltbetriebsprüfung EMAS ist das Instrument, mit dem die Europäische Union die kontinuierliche Verbesserung der Umwelleistung von Organisationen fördert - vgl. Verordnungen (EG) Nr. 1221/2009 und (EU) 2017/1505 des Europäischen Parlaments und des Rats. Panariagroup Industrie Ceramiche S.p.A. ha die EMAS Registrierung für alle Produktionsstätten erhalten: Toano (RE) (Registrierungsnummer I-000239), Finale Emilia (MO) (Registrierungsnummer I-000309), Fiorano Modenese (MO) (Registrierungsnummer I-000401) und Ilhavo/Aveiro (Portugal) (Registrierungsnummer PT-000097). Diese Registrierung hat eine große Bedeutung, da sie die Schaffung eines wahren Umweltmanagement - systems auf der Grundlage der kontinuierlichen Verbesserung der Effizienz des Umweltcontrollings impliziert.

Das System basiert auf dem Aufbau einer kooperativen und von gegenseitigem Vertrauen geprägten Beziehung mit den territorialen Institutionen (öffentlichen Einrichtungen, Behörden, Verbänden, gewerkschaftlichen Vertretungen, Schulen, Presse) und der Öffentlichkeit. Des Weiteren ist die aktive Einbeziehung des gesamten Personals vorgesehen. Die Umweltschutzerklärung ist das endgültige Dokument, in dem die Aspekte zum Umweltschutz und zur Sicherheit am Arbeitsplatz, die Initiativen zum Schutz der Umwelt an diesem Standort sowie die Ziele beschrieben werden, die das Unternehmen im Rahmen des kontinuierlichen Verbesserungsprozesses erreichen will. Die Erklärung wird von einem zugelassenen Umweltgutachter nach vor Ort durchgeführten Inspektionen (Audits) genehmigt. Panaria ist einer der wenigen Keramikerhersteller, der eine EMAS-Registrierung vorweisen kann, die, gemeinsam mit Ecolabel und dem Qualitätszertifikat ISO 14001, das große Engagement und die Sensibilität des Unternehmens in Bezug auf Ethik, Umweltschutz, Sicherheit und Qualität unter Beweis stellt.

Le Système communautaire de Management environnemental et d'Audit est un instrument employé par l'Union européenne pour promouvoir l'amélioration constante des performances environnementales des organisations. — Référence : Règlements (CE) n° 1221/2009 et (UE) 2017/1505 du

Parlement européen et du Conseil. Panariagroup Industrie Ceramiche S.p.A. a obtenu l'accréditation EMAS pour les trois sites de production: Finale Emilia (MO) (accréditation N° I - 000309), Toano (RE) (accréditation N° I-000239), Fiorano Modenese (MO) (accréditation N°I-000401) et Ilhavo/Aveiro (Portugal) (accréditation N° PT-000097). Cette certification revêt une grande importance, car elle sous-entend la création d'un véritable Système de gestion de l'environnement, basé sur la perpétuelle amélioration des résultats obtenus en matière d'environnement. Le système repose sur la création d'un rapport de collaboration et de confiance avec les institutions du territoire (Institutions, Pouvoirs publics, Associations, Représentations syndicales, Écoles, Presses) et avec le public. Il est prévu que tous les employés participeront activement à ce programme. La Déclaration environnementale constitue le document final décrivant les éléments en matière d'environnement et de sécurité sur le lieu de travail, les efforts effectués par le site pour l'environnement et les objectifs que l'entreprise s'est fixés dans le cadre de cette amélioration perpétuelle. La déclaration a été validée par un Contrôleur officiel suite aux inspections (audit) effectuées sur le site. Panaria fait partie des rares entreprises actives dans le domaine de la céramique disposant du certificat EMAS, qui, à l'instar de l'Ecolabel et du certificat de qualité ISO 14001, témoigne de la plus grande attention et de la sensibilité de la part de la direction en ce qui concerne les questions éthiques, environnementales, de sécurité et de qualité.

Marchio europeo CE di sicurezza

CE Security Mark / Europäisches CE Sicherheitszeichen /
Certificat européen de sécurité CE

La marcatura CE è la certificazione di sicurezza del prodotto richiesta dall'Unione Europea, ed ha lo scopo di salvaguardare la salute delle persone e i beni nelle opere di costruzione. Il nuovo Regolamento UE N. 305/2011 è in vigore il 1 luglio 2013. La novità più rilevante è l'introduzione della Dichiarazione di Prestazione (DOP, Declaration Of Performance) con la quale il fabbricante comunica i requisiti di sicurezza dei propri materiali.

Le lastre in gres porcellanato Zero.3 3plus - Zero.3 5plus sono in possesso del marchio CE (cfr. DOP004PAN - cfr. DOP005PAN). L'applicazione sul retro di una rete in fibra di vetro conferisce a questi prodotti le classi di reazione al fuoco indicate su questo catalogo nelle tabelle tecniche Zero.3.

Le DOP di Panaria sono disponibili sul sito internet www.panaria.it.

The CE mark is the safety product certification required by EU and it is finalized to preserve the people's health and the goods in buildings.

The new Regulation UE N. 305/2011 is valid from the first of July 2013. The most important news is the introduction of the Declaration Of Performance (DOP) with which the supplier communicates the safety requirements concerning own materials. Zero.3 3plus - Zero.3 5plus porcelain

stoneware slabs have the CE mark (cf. DOP004PAN - cf. DOP005PAN). The application of a fibreglass mesh on the back confer to these products the categories of fire resistance indicated in the Zero.3 technical tables.

Panaria DOP are available on the website www.panaria.it.

Das CE-Kennzeichnung ist die von EU angefragte Zertifizierung für die Produkt-Sicherheit, und hat das Zweck die Gesundheit der Menschen zu schützen und die Güter in der Bauphase zu bewahren.

Die neue Regelung UE N. 305/2011 tritt am 1.07.2013 in Kraft. Die wichtigste Neuheit ist die Einfügung der Leistungserklärung (DOP, Declaration Of Performance), mit der der Hersteller die Sicherheitsanforderungen eigenen Materialien mitteilt.

Die Feinsteinzeugfliesen Zero.3 3plus - Zero.3 5plus sind mit dem CE-Markenzeichen versehen (siehe DOP004PAN - siehe DOP005PAN). Die Anwendung eines Glasfasernetzes auf der Rückseite der Fliesen verleiht diesen Produkten die in den technischen Tabellen Zero.3 aufgeführten Brandklassen.

Die DOP Panaria sind auf Internet Site www.panaria.it verfügbar.

L'Union Européenne définit avec la marque CE est la certification de sécurité des produits demandé par l'Union Européenne ayant comme objectif la protection et la santé des personnes et des biens dans les ouvrages du bâtiments.

Le nouveau Règlement UE Nr. 305/2011 est entré en vigueur le 1^{er} Juillet 2013.

La nouveauté la plus importante est l'introduction de la Déclaration de Prestation (DOP, Declaration Of Performance) par la quelle le fabricant communique les caractéristiques de sécurité de ses produits.

Les dalles en grès cérame Zero.3 3plus - Zero.3 5plus possèdent le marquage CE (cfr. DOP004PAN - cfr. DOP005PAN). L'application d'une couche en fibre de verre au dos de chaque dalle confère aux produits une haute résistance au feu. La classe de résistance des dalles est disponible dans les tableaux techniques Zero.3.

Les DOP de Panaria sont disponibles sur le site internet www.panaria.it.

Posa gradoni e battiscopa scala

Laying staircase treads and risers / Verlegung Treppenstufen und Sockelleisten / Pose marches et plinthes pour escalier

È possibile posare GRADINO PLUS sia in all'interno che all'esterno. Per la posa in esterno, al fine di evitare infiltrazioni d'acqua, si consiglia di posizionare l'alzata come in figura "A"; oppure di mantenere libera la parete frontale del gradino, come in figura "B".

GRADINO PLUS can be installed both indoors and outdoors. For exterior installation, to prevent

water infiltration, it is recommended to position the riser as seen in figure "A"; or to keep the front wall of the step free, as in figure "B".

GRADINO PLUS kann sowohl im Innen- als auch im Außenbereich verlegt werden. Für die Verlegung im Außenbereich empfiehlt sich, um das Durchsickern von Wasser zu vermeiden, die Setzstufe wie in Abbildung

„A“ zu verlegen; oder die Vorderseite der Stufe frei zu lassen, wie in Abbildung „B“.

On peut poser GRADINO PLUS aussi bien à l'intérieur qu'à l'extérieur. Pour la pose en extérieur, il est conseillé de placer la contremarche tel qu'indiqué sur la figure A, afin d'éviter les infiltrations d'eau, ou de laisser libre la paroi avant de la marche, comme sur la figure B.

Pulizia stucchi cementizi miscelati con acqua

Cleaning cement-based grouts mixed with water / Reinigung des mit Wasser angemischten Zementmörtels / Nettoyage des enduits de ciments mélangés à de l'eau

PULIZIA "DOPOPOSA"

La pulizia "dopoposa" serve per rimuovere i residui di stucchi per le fughe, cemento, calce, boiaccia. È obbligatoria a fine cantiere, sia per le piastrelle smaltate che per quelle non smaltate. Effettuare la pulizia dopo 4-5 giorni dalla stuccatura (lo stucco deve indurire) e non oltre 10 giorni. Oltre questi tempi la pulizia può diventare molto più laboriosa.

Superfici antiscivolo

Per loro peculiarità, le superfici antiscivolo, ruvide o strutturate si puliscono più laboriosamente. Si consiglia perciò di prestare particolare attenzione alle modalità di pulizia, in particolare intervenendo rapidamente ed utilizzando monospazzola con dischi bianchi e beige.

CLEANING AFTER LAYING

Cleaning after laying is done to remove residues of joint fillers, cement, lime or grout. It is essential to do it at the end of the job, both for glazed and for unglazed tiles. Carry out cleaning 4-5 days after grouting (the grout needs to harden) and not later than 10

days after grouting. Any later than this, and cleaning can become very laborious.

Anti-slip surfaces

Due to their special features, rough or structured anti-slip surfaces are harder to clean. It is thus recommended to be very careful while cleaning, above all intervening quickly and using a single brush with white or beige disks.

REINIGUNG NACH DEM VERLEGEN

Die Reinigung nach dem Verlegen dient dazu, die Reste des Fugenmörtels, des Betons, des Kalks und der Zementmasse von den Fliesen zu entfernen. Die Reinigung muss sofort nach Beendigung der Arbeiten erfolgen. Dies gilt sowohl für glasierte als auch für unglasierte Fliesen. Die Fliesen 4-5 Tage, spätestens aber 10 Tage nach dem Verputzen reinigen (der Putz muss erhärten). Nach diesem Zeitraum kann die Reinigung einen sehr viel höheren Arbeitsaufwand erforderlich machen.

Rutschfeste oberflächen

Aufgrund ihrer Beschaffenheit sind die rutschfesten, rauhen oder strukturierten Oberfl

ächen etwas schwieriger zu reinigen. Aus diesem Grunde ist die Reinigung sehr wichtig. Für eine schnellere Reinigung wird der Einsatz einer Einscheibenmaschine mit einer weissen oder beige Scheibe empfohlen.

NETTOYAGE APRÈS LA POSE

Le nettoyage après la pose permet de retirer les résidus de ciment, de rejointoiement, de ciment, de plâtre et de coulis. Il est obligatoire en fin de chantier pour les carrelages émaillés ou non. Procéder au nettoyage 4 à 5 jours après le rejointoiement (le matériau doit durcir) et en tout cas avant 10 jours. Après ce délai, le nettoyage risque d'être beaucoup plus difficile.

Surfaces antidérapantes

Du fait de leurs caractéristiques spécifiques, les surfaces antidérapantes (rugueuses ou structurées) demandent des opérations de nettoyage plus complexes. Il est donc conseillé de suivre minutieusement les instructions de nettoyage, de veiller à réduire le plus possible les temps d'intervention et d'utiliser une monobrosse avec des disques blancs ou beiges.

Pulizia stucchi epossidici, bi-componenti e reattivi

Cleaning for epoxy, bi-component and reagent grouts / Reinigung von Epoxi-, bi-komponent und aktiven Spachtelmassen / Nettoyage des joints Epoxy, bi-composant et réactif

La rimozione di questi stucchi deve essere fatta immediatamente ed in modo accurato perché questi stucchi induriscono molto rapidamente, anche in pochi minuti.

Seguire attentamente le modalità di pulizia indicate dal fabbricante dello stucco utilizzato e verificarne l'efficacia (anche controluce) con una prova preliminare di pulizia prima di stuccare l'intero pavimento/parete.

Removal of the residues of these grouts must be carried out immediately and thoroughly, as these grouts harden very rapidly, even in a few minutes.

Please carefully follow the cleaning mode specified by the manufacturer of the grout used; verify its effectiveness (backlight also) with a preliminary cleaning test before grouting the entire floor/wall.

Die Reste dieser Mörtelarten müssen sofort nach dem Verlegen sorgfältig entfernt werden, da sie extrem schnell (in wenigen Minuten) erhärten.

Die angegebene Reinigungshinweis vom Hersteller der verwendete Fugenmasse sorgfältig befolgen. Vor dem Verfugen des gesamten Belag (Boden u/o Wand), die Wirkung der Reinigungsempfehlung (auch im Gegenlicht) mit einem Vor-Test Reinigung überprüfen.

Le nettoyage des résidus doit être effectué immédiatement et avec soin, car ce type de matériau durcit très rapidement (en quelques minutes).

Suivez attentivement les indications de nettoyage indiqué par le fabricant de joint utilisé et vérifiez son efficacité (même rétro-éclairage) avec un nettoyage préventif avant de jointoyer la totalité du sol/mur.

Trattamenti Antislip

Anti-slip treatments / Anti-Rutsch-Behandlung / Traitement antidérapant

La resistenza allo scivolamento dei pavimenti posati (sia piastrelle smaltate che non smaltate) può essere aumentata utilizzando specifici prodotti (vedi tabella). Prima di applicare il prodotto sul pavimento fare test preventivi su piastrelle non posate per trovare i tempi di contatto più idonei. Se da un lato tempi più lunghi aumentano il grado di grip, dall'altro tendono un po' a sbiancare i colori delle piastrelle e a renderle un pochino più sporcabili. Trattandosi di una applicazione molto tecnica, prima di eseguire qualsiasi prova contattare la ditta Bonasystems Italia.

The resistance of laid floor-tiles (both glazed and unglazed) to slipping can be increased by using specific products: see table. Before applying the product to the floor, do an advance test on unglazed tiles to find the

most suitable contact times. On the one hand, longer contact times increase the level of grip, but on the other hand they tend to whiten the colours of the tiles and make them attract dirt a little more. Before doing any test please contact Bonasystems Italia company, since this is a very technical application.

Der Gleitwiderstand auf den verlegten Bodenbelägen (sowohl glasierte als auch unglasierte Fliesen) kann mithilfe von entsprechenden Produkten (siehe Tabelle) erhöht werden.

Vor dem Auftragen des Produktes auf den Boden empfiehlt es sich, einen Test auf einer noch nicht verlegten Fliese durchzuführen, um so die geeignete Kontaktzeit bestimmen zu können. Während einerseits die Haftfähigkeit durch verlängerte Kontaktzeiten erhöht wird, werden andererseits die Farben der

Fliesen ein wenig gebleicht, wodurch diese etwas leichter verschmutzen. Aufgrund von der erhöhten technische Schwierigkeit, vor jedem Probetest oder Benutzung, setzen Sie sich mit der Fa. Bonasystems Italia in Verbindung.

La résistance des produits antidérapants posés peut être améliorée (carrelage émaillé ou non) à l'aide de produits spécifiques (voir tableau). Avant d'appliquer le produit sur le carrelage, faire un essai sur un carreau non posé afin de déterminer la durée de contact la mieux adaptée. Si des durées plus importantes augmentent l'adhérence, elles décolorent aussi les carreaux et les rendent plus salissants. Avant d'effectuer tout test veuillez contacter la société Bonasystems Italia, puisque il s'agit d'une application très technique.

Condizioni generali di vendita

GENERAL TERMS AND CONDITIONS OF SALE

CONDIZIONI GENERALI DI VENDITA

1) Ambito di applicazione

1.1 Le presenti condizioni generali di vendita (“CGV”) si applicheranno a tutte le forniture di piastrelle in ceramica o altri prodotti in ceramica (“Prodotti”) che saranno eseguite nei confronti di qualsiasi cliente (“CLIENTE”) da una società o divisione del Gruppo Panariagroup Industrie Ceramica S.p.A. (“VENDITORE”) anche se le CGV non verranno di volta in volta espressamente richiamate, menzionate ovvero espressamente accettate dal CLIENTE.

1.2 Accordi in deroga alle presenti CGV saranno efficaci nei confronti di VENDITORE soltanto (i) se contenuti nel “Contratto di Vendita”, come definito al successivo paragrafo 3.2, (ii) se contenuti in documenti successivi alla conclusione del Contratto di Vendita ed il cui contenuto sia stato accettato per iscritto da VENDITORE. In ogni caso, anche se presenti deroghe concordate per iscritto, le CGV continueranno ad applicarsi per le parti non espressamente derogate.

1.3 In nessun caso VENDITORE sarà vincolato da eventuali condizioni generali di contratto di CLIENTE, neanche qualora esse siano richiamate o riportate negli ordini o in qualsiasi altra documentazione trasmessa a VENDITORE da CLIENTE. Nessun comportamento di VENDITORE potrà essere interpretato o utilizzato al fine di esprimere tacita accettazione di VENDITORE delle condizioni generali di contratto di CLIENTE.

1.4 In nessun caso, VENDITORE sarà vincolato da atti e/o azioni dei propri agenti, essendo questi ultimi privi del potere di vincolare il VENDITORE.

1.5 Nel caso in cui CLIENTE sia un consumatore, le disposizioni delle presenti CGV non pregiudicheranno i diritti allo stesso spettanti in base alle previsioni di legge relative alle vendite eseguite nei confronti dei consumatori.

2) Prodotti – Modifiche

2.1 Le rappresentazioni e/o immagini riguardanti i Prodotti riportate in siti internet, brochure, cataloghi, listini prezzi o documenti similari di VENDITORE hanno valore indicativo ed illustrativo. Conseguentemente, esse non rappresentano il risultato estetico finale dei Prodotti. Le caratteristiche tecniche e fisiche nonché le qualità dei Prodotti sono riportate unicamente nei manuali tecnici di VENDITORE. Ogni altro documento riportante le caratteristiche tecniche e fisiche nonché le qualità dei Prodotti ha valore puramente indicativo e non sarà vincolante per VENDITORE.

2.2 VENDITORE dichiara che i Prodotti sono conformi alle norme italiane e comunitarie di settore ad essi applicabili. A pena di inefficacia della garanzia di cui all’articolo 7 e di qualsiasi altra garanzia convenzionale e/o legale, ciascun Prodotto dovrà essere utilizzato ed applicato in conformità alle indicazioni di utilizzo di VENDITORE riferite ai Prodotti in questione e riportate nei cataloghi e/o nei manuali tecnici di VENDITORE ovvero diversamente comunicate o rese accessibili da VENDITORE a CLIENTE e, comunque, in conformità alla diligenza richiesta dalla natura dei Prodotti stessi.

2.3 È responsabilità di CLIENTE, prima della conclusione del Contratto di Vendita, accertare che i Prodotti siano idonei allo scopo e/o all’uso specifico per il quale intende acquistarli e, inoltre, accertare che i Prodotti medesimi siano conformi alla normativa applicabile nel luogo in cui CLIENTE intende importarli, distribuirli, venderli o farne qualsiasi uso.

2.4 VENDITORE, anche dopo la conclusione del Contratto di Vendita, potrà apportare ai Prodotti qualsiasi modifica che esso ritenga necessaria o opportuna, purché non ne alteri le caratteristiche essenziali. Qualora VENDITORE esegua modifiche sostanziali ai Prodotti (ad es. modifiche che interessano: le modalità di installazione, le caratteristiche di intercambiabilità dei Prodotti ecc.) oggetto di un Contratto di Vendita (come definito al successivo paragrafo 3.2), VENDITORE comunicherà per iscritto tale modifica a CLIENTE.

2.5 CLIENTE sarà tenuto a rappresentare agli acquirenti dei Prodotti e ai terzi le caratteristiche dei Prodotti nonché le indicazioni d’uso e di applicazione degli stessi, in conformità a quanto rappresentatogli da VENDITORE. Fermo restando quanto sopra, CLIENTE sarà esclusivamente responsabile per le dichiarazioni effettuate nei confronti dei terzi in relazione ai Prodotti, alle loro caratteristiche e al loro uso e/o applicazione e dovrà tenere VENDITORE indenne e manlevato da qualsiasi danno eventualmente subito da VENDITORE in relazione a o in connessione con tali dichiarazioni di CLIENTE, nel caso in cui le stesse siano false, incomplete e/o inesatte.

3) Preventivi – Conclusione del Contratto di Vendita - Tolleranze

3.1 I preventivi, verbali o scritti, di VENDITORE non costituiscono proposte contrattuali.

3.2 Il contratto di vendita (“Contratto di Vendita”) si perfezionerà attraverso:

a) la trasmissione della offerta da parte di VENDITORE e l'accettazione scritta di tale offerta da parte di CLIENTE senza alcuna modifica all’offerta stessa; oppure
b) la trasmissione dell’ordine da parte di CLIENTE e l'accettazione scritta di tale ordine da parte di VENDITORE.

3.3 Ai fini del precedente paragrafo 3.2, lettera a) i seguenti fatti o atti avranno valore di accettazione scritta della offerta di VENDITORE da parte di CLIENTE: a) ricezione e accettazione, da parte di VENDITORE, di una lettera di credito procurata da CLIENTE; b) ricezione e accettazione, da parte di VENDITORE, di tutto o di parte del prezzo della fornitura; c) ricezione, da parte di VENDITORE, di un ordine di acquisto emesso da CLIENTE. In tal caso, qualsiasi previsione dell’ordine di acquisto di CLIENTE che risulti difforme dalle previsioni della offerta di VENDITORE sarà vincolante nei confronti di VENDITORE solo se specificamente accettata per iscritto da quest’ultimo.

3.4 Inoltre, ai fini del precedente paragrafo 3.2, lettera b), nel caso in cui la accettazione di VENDITORE dell’ordine di CLIENTE contenga condizioni differenti rispetto all’ordine formulato da CLIENTE, il Contratto di Vendita si considererà concluso alle condizioni riportate nella conferma d’ordine di VENDITORE, salvo il caso in cui CLIENTE comunichi per iscritto di rifiutare le modifiche riportate nella accettazione dell’ordine di VENDITORE entro 1 (uno) giorno lavorativo dalla ricezione della stessa.

3.5 Le forniture comprenderanno esclusivamente quanto indicato nel Contratto di Vendita.

3.6 CLIENTE riconosce a VENDITORE i margini di tolleranza quantitativa e/o qualitativa rinvenibili dal Contratto di Vendita o dagli usi o dalla prassi del settore dei Prodotti.

4) Imballaggio – Termini di resa – Termini di consegna

4.1 I Prodotti saranno imballati ed approntati per la spedizione secondo i sistemi di protezione generalmente adottati da VENDITORE per i Prodotti in questione in considerazione delle modalità di trasporto convenute. Qualora CLIENTE ritenga necessario l’impiego di imballaggi speciali o di protezioni aggiuntive dovrà farne espressa richiesta a VENDITORE, fermo restando che, in tal caso, saranno a carico di CLIENTE tutti i relativi costi.

4.2 Salvo diversamente previsto nel Contratto di Vendita, i Prodotti saranno consegnati a CLIENTE in conformità alla regola Incoterms® ICC, ultima versione, Ex-Works (EXW) – stabilimento di VENDITORE indicato nel Contratto di Vendita.

CLIENTE autorizza VENDITORE a sottoscrivere, in nome e per conto di CLIENTE, tutti i documenti che debbano essere sottoscritti al momento della presa in carico dei Prodotti presso gli stabilimenti di VENDITORE, come, ad esempio, il CMR.

Nel caso in cui la regola Incoterms® ICC concordata tra le parti preveda che CLIENTE debba curare il trasporto dei Prodotti fuori dall’Italia:

a) in caso di cessione intra-comunitaria, entro 45 (quarantacinque) giorni dalla ricezione dei Prodotti presso gli stabilimenti di CLIENTE, CLIENTE dovrà trasmettere a VENDITORE un originale o una copia del documento di trasporto internazionale CMR o di altro documento di trasporto, sottoscritti a destinazione da CLIENTE ovvero, in assenza del CMR, una dichiarazione di ricezione dei Prodotti, emessa sulla base del form quale Allegato -1- disponibile per il download all’indirizzo www.panariagroup.it;

b) in caso di cessione extra-comunitaria, CLIENTE si impegna a:

i) presentare la dichiarazione doganale di esportazione (DAU-EX e DAE) ed effettuare l’appuramento del MRN (Movement Reference Number) presso la dogana del territorio comunitario di uscita dei Prodotti, entro 90 (novanta) giorni dalla data di consegna in Italia dei Prodotti stessi;
ii) inviare a VENDITORE, entro 90 (novanta) giorni dalla data di consegna, i documenti comprovanti l’esportazione dei Prodotti (dichiarazione di esportazione DAU-EX + DAE + notifica di avvenuta esportazione);
iii) confermare prontamente per iscritto a VENDITORE l’avvenuta esecuzione delle suddette formalità e a fornirgli ogni ulteriore documento comprovante

l’esecuzione delle suddette formalità e l’uscita dei Prodotti dal territorio dell’Unione Europea.

In caso di inadempienza di CLIENTE a quanto pattuito al presente paragrafo 4.2, VENDITORE avrà il diritto di addebitare immediatamente a CLIENTE l’imposta sul Valore Aggiunto relativa alla fornitura e connessa alla mancata prova del trasporto dei Prodotti in altro Stato Membro della Comunità Europea o mancato appuramento della esportazione. In ogni caso, CLIENTE terrà indenne e manlevato VENDITORE in relazione al pagamento di tutto quanto eventualmente dovuto da VENDITORE nei confronti dell’Amministrazione Finanziaria, a titolo di sanzioni ed interessi o ad altro titolo, in connessione con la fornitura e la mancata prova del trasporto dei Prodotti in altro Stato Membro della Comunità Europea o al mancato appuramento della esportazione.

A tal proposito, VENDITORE potrà: (i) compensare qualsiasi importo dovuto da CLIENTE in base al presente paragrafo 4.2 con eventuali crediti maturati da CLIENTE, a qualsiasi titolo, nei confronti di VENDITORE; ovvero (ii) trattenere definitivamente eventuali somme già ricevute da CLIENTE in relazione a Contratti di Vendita ancora da eseguirsi, effettuando una compensazione fra il debito di CLIENTE in base al presente paragrafo 4.2 e tutti i pagamenti già eseguiti da CLIENTE.

4.3 VENDITORE eseguirà la consegna dei Prodotti entro il termine previsto nel Contratto di Vendita, anche mediante consegne parziali. Il termine di consegna si intenderà in ogni caso non essenziale né perentorio. Salvo il caso di dolo o colpa grave, VENDITORE non sarà tenuto a corrispondere a CLIENTE alcun indennizzo o risarcimento per eventuali danni diretti o indiretti dovuti al ritardo nella consegna. In nessun caso di ritardo nella consegna dei Prodotti CLIENTE avrà il diritto di risolvere il Contratto di Vendita.

4.4 Al momento della ricezione dei Prodotti, CLIENTE avrà l’onere di denunciare danneggiamenti agli imballi e/o eventuali avarie o ammanchi di Prodotti verificatisi durante il trasporto, mediante apposizione di riserva scritta nel documento di trasporto, nonché l’onere di:

a) far confermare dal vettore, mediate apposita sottoscrizione, l’apposizione della riserva; e
b) informare immediatamente per iscritto VENDITORE e inviargli copia del suddetto documento entro e non oltre 8 (otto) giorni dalla data di ricezione dei Prodotti. In caso contrario, VENDITORE non sarà responsabile per eventuali danneggiamenti, perdite o furti occorsi ai Prodotti durante il trasporto, anche qualora lo stesso sia eseguito con rischio in tutto o in parte a carico di VENDITORE.

5) Prezzi – Pagamento – Ritardato pagamento

5.1 I Prodotti verranno forniti ai prezzi concordati tra le parti nel Contratto di Vendita o, qualora il Contratto di Vendita non dovesse menzionare alcun prezzo, ai prezzi riportati nel listino prezzi di VENDITORE in vigore al momento della conclusione del Contratto di Vendita. Salvo diversa indicazione scritta, i prezzi dei Prodotti riportati nei listini, nei preventivi e/o nelle offerte di VENDITORE si intendono in Euro, al netto di IVA e per consegne eseguite in conformità alla regola Incoterms® Ex-Works (EXW), stabilimento di VENDITORE indicato nel Contratto di Vendita, ICC, ultima versione. Pertanto, nel caso in cui venga convenuto un diverso termine di resa, l’importo della fattura verrà modificato di conseguenza, includendo in fattura le spese di trasporto e ogni altro onere connesso con il termine di resa concordato tra le parti per la consegna dei Prodotti.

5.2 Il pagamento dei Prodotti dovrà essere eseguito da CLIENTE con le modalità e nei tempi indicati nel Contratto di Vendita o diversamente concordati per iscritto tra le parti. I pagamenti si considereranno effettuati da CLIENTE solo nel momento in cui il relativo importo sarà stato accreditato sul conto corrente di VENDITORE. Il pagamento dovrà essere effettuato da CLIENTE in Euro ovvero nella valuta del luogo in cui CLIENTE ha la propria sede, a scelta di VENDITORE, in conformità alla valuta che VENDITORE indicherà nella relativa fattura di vendita.

5.3 Nel caso in cui CLIENTE sia in ritardo nell’esecuzione del pagamento, VENDITORE avrà diritto:

a) al pagamento degli interessi legali di mora, in conformità alla legge applicabile;
b) di sospendere le consegne ancora da eseguirsi, previa comunicazione scritta a CLIENTE, fino a quando gli importi dovuti e i relativi interessi di mora siano stati integralmente pagati.

5.4 Qualora tali importi e interessi risultino ancora non pagati una volta decorsi 30 (trenta) giorni dalla

scadenza data di pagamento concordata, VENDITORE potrà altresì, a propria discrezione, alternativamente o cumulativamente, e in aggiunta a qualsiasi altro diritto o rimedio allo stesso spettante in base alla legge o alle presenti CGV:

a) esigere l’immediato pagamento di ogni debito residuo, anche se sia stato convenuto un pagamento a rate o un pagamento dilazionato e/o siano stati emessi e siano in scadenza cambiali tratte, pagherò cambiari, assegni o altri strumenti di pagamento;

5.6 CLIENTE non potrà far valere eventuali inadempimenti di VENDITORE né potrà avviare alcuna azione legale nei confronti dello stesso fino a quando non abbia pagato integralmente a VENDITORE ogni importo allo stesso spettante ai sensi dei paragrafi 5.3 e 5.4.

A tale proposito, CLIENTE potrà restituire a VENDITORE i Prodotti dallo stesso ritenuti difformi o difettosi soltanto previa autorizzazione scritta di VENDITORE ed a condizione che CLIENTE si faccia integralmente carico delle spese e dei rischi di spedizione. 8) Forza maggiore

8.1 VENDITORE non sarà in alcun modo responsabile per il mancato o ritardato adempimento di alcuna obbligazione relativa alla fornitura dei Prodotti qualora tale mancato o ritardato adempimento sia dovuto a eventi di forza maggiore come guerre, incendi, terremoti, inondazioni, tsunami, scioperi, difficoltà insorte con la forza lavoro, scarsità o difficoltà di approvvigionamento di materie prime, restrizioni all’uso di energia, sospensione o difficoltà nei trasporti, guasti agli impianti, atti della pubblica autorità o a qualsiasi altra azione o causa che non possa essere ragionevolmente prevista o alla quale VENDITORE non possa ragionevolmente porre rimedio tramite l’ordinaria diligenza.

1) Scope Of Application

1.1 These General Terms and Conditions of Sale ("General Conditions") shall apply to any and all supply of ceramic tiles or other ceramic products ("Products") that will be executed to any client ("CLIENT") from any company or division of the Group Panariagroup Industrie Ceramiche S.p.A. ("SELLER"), even if these General Conditions are not expressly referred to, mentioned or expressly accepted by the CLIENT from time to time.

1.2 No provisions deviating from these General Conditions shall be binding on SELLER unless (i) included in the "Sale Contract", as defined under paragraph 3.2 below, (ii) included in documents following the Sale Contract and the content of the same has been accepted in writing by SELLER. In any case, even if deviating provisions are agreed upon, these General Conditions shall apply for the parts not expressly disregarded.

1.3 In no case shall any general conditions of contract of CLIENT be binding on SELLER, even if mentioned or included in orders or in any other documents transmitted by CLIENT to SELLER. No conduct of SELLER shall be interpreted or used in order to express tacit acceptance of SELLER to the general conditions of contract of CLIENT.

1.4 In no case SELLER shall be bound by acts and/or conducts of its agents, being the latter in lack of any power to bind SELLER.

1.5 In case CLIENT is a consumer, the provisions of these General Conditions shall not prejudice the rights of CLIENT provided for by the law applicable to sales executed toward consumers.

2) Products – Modifications

2.1 Any representation and/or image relating to the Products included in websites, brochures, catalogues, price lists or other similar documents of SELLER is approximate and purely illustrative. As a consequence, such representations and/or images do not represent the final aesthetic result of the Products. Technical and physical characteristics of the Products as well as qualities of the same are described in the technical manuals of SELLER only. Any other document including technical and physical characteristics and qualities of the Products are purely indicative and shall not bind SELLER.

2.2 SELLER declares that the Products are compliant with the applicable Italian and European industry standards. Any Products shall be used and applied in accordance with the instructions of use of SELLER included in catalogues and/or technical manuals of SELLER with reference to the Products in question or with the instructions in other way communicated and/or made available by SELLER to CLIENT and, in any case, in accordance with the diligence required by the nature of the Products. Failing to do so, CLIENT will result in the lapse of the warranty and in the unenforceability of the warranty rights under article 7 below or of any other legal or agreed warranty.

2.3 It is the responsibility of CLIENT, before executing of the Sale Contract, to make sure that the Products are suitable for their specific purpose and/or intended use and, in addition, that they also comply with the laws and regulations applicable in the place where CLIENT will import, distribute, sell or use them in any way.

2.4 SELLER may make any changes to the Products which, without altering their essential features, it deems necessary or convenient, even after execution of the Sale Contract. In case SELLER executes substantial modification to Products (e.g. modifications that will alter: the way of installation, characteristic of interchangeability of the Products, etc.) which are the object of an executed Sale Contract (as defined in paragraph 3.2 below), SELLER shall communicate in writing such modification to CLIENT.

2.5 CLIENT shall inform the purchasers of the Products and third parties of the characteristics of the Products and of the instructions of use and of application of the same in accordance with the indication provided by SELLER. Without prejudice to the above, CLIENT shall be the sole responsible and liable for the declarations it will make toward third parties with reference to the Products, their characteristics and their use or application and shall indemnify and hold SELLER harmless and from any damage possibly suffered by SELLER with reference to or in connection to such declarations of CLIENT, in case they result false, incomplete or inaccurate.

3) Quotations – Execution of Sale Contract – Tolerances

3.1 Written or verbal quotations issued by SELLER are not to be taken as valid contractual proposals.

3.2 The sale contract ("Sale Contract") is executed as follows:

a) an offer is sent by SELLER to CLIENT and CLIENT then sends its written acceptance of such offer to SELLER, without any modification to the offer itself; or
b) a purchase order is sent by CLIENT and SELLER then sends its written acceptance of such order to CLIENT.

3.3 For the purposes of paragraph 3.2 letter a) above, the following facts or actions shall constitute the written acceptance of an offer of SELLER by CLIENT:

a) the receipt by SELLER of a letter of credit sent by CLIENT;

b) the receipt by SELLER of all or part of the relevant purchase price;

c) the receipt by SELLER of a purchase order of CLIENT. Should this be the case, any order of CLIENT that differs from the provisions of the offer of SELLER shall be binding on SELLER only if and to the extent that SELLER had expressly accepted it in writing.

3.4 In addition, for the purposes of paragraph 3.2 letter b) above, in case the acceptance of SELLER includes terms and condition different from those of the order of CLIENT, the Sale Contract shall be deemed to be concluded at the conditions included in the acceptance of SELLER, unless CLIENT notifies SELLER, in writing, not to accept the terms and conditions of the acceptance of SELLER within 1 (one) working day from the receipt of such acceptance.

3.5 All supplies of Products will only include what is expressly indicated in Sale Contract.

3.6 CLIENT recognizes to SELLER quantity and quality tolerances as resulting from the Sale Contract or from the usage and practices of the sector of the Products.

4) Packing – Delivery term – Delivery time

4.1 The Products will be packaged and readied to ship in compliance with the standard protection methods generally adopted by SELLER for the Products in question, in consideration of the agreed mode of transport.

CLIENT shall expressly request to SELLER any special packaging or supplementary protection it deems necessary, and in such event CLIENT will bear all related costs thereof.

4.2 Unless otherwise provided for in the Sale Contract, the Products shall be delivered to CLIENT in accordance with the Incoterms® ICC rule, latest version, Ex-Works (EXW) – premises of SELLER indicated in the Sale Contract.

CLIENT authorizes SELLER to undersign, in the name and on behalf of CLIENT, any and all transport documents which shall be signed at the time of collection of the Products at the premises of SELLER, such as the CMR. In the event that the ICC Incoterms® rule agreed between the parties provides that CLIENT shall take care of the transportation of the Products outside the territory of Italy:

a) in case of an Intra-EU supply, within 45 (forty-five) days from the receipt of the Products at its premises, CLIENT shall send SELLER an original or a copy of the international transportation document CMR or of another transportation document, undersigned at destination by CLIENT or, in the absence of the international transportation document CMR, a declaration of receipt of the Products issued on the basis of the form as Annex -1- available for download at www.panariagroup.it;

b) in case of an Extra-EU supply, CLIENT shall:
i) submit the custom export declaration (SAD-EX + EAD) and execute the validation of the MRN (Movement Reference Number) at the customs of the UE territory of exit of the Products, within 90 (ninety) days from the date of delivery of the same in Italy;

ii) send SELLER, within 90 (ninety) days from the date of delivery, documents proving the exportation of the Products (custom export declaration SAD-EX + EAD + certification of exit);

iii) notify SELLER, in writing, as soon as such submission is accomplished and provide SELLER with any other document proving the execution of such formalities as well as the exit of the Products from the UE Territory. In case CLIENT is in breach of its obligations under this paragraph 4.2, SELLER shall be entitled to immediately charge CLIENT the amount of the Value Added Tax applicable to the supply and connected to the lack of proof of the transportation of the Products in

another Member State of the EU or to the lack of execution of custom clearance formalities. In any case, CLIENT shall indemnify and hold SELLER harmless with reference to any payment due to tax offices for fines, interests or on any other basis, in connection with the supply and with the lack of the proof of the transportation of the Products in a another Member State of the EU or with the lack of execution of custom clearance formalities.

In this respect, SELLER shall be entitled to: (i) offset any amount due by CLIENT on the basis of this paragraph 4.2 against any amount due, for whatever reason, from SELLER to CLIENT; or (ii) definitively withhold any amount received in regard to Sale Contracts, offsetting the CLIENT's debt under this paragraph 4.2 against any and all sums already paid by CLIENT.

4.3 SELLER shall deliver the Products within the delivery date provided for in the Sale Contract, in a single delivery or in partial deliveries. The delivery date shall always be considered neither of the essence nor peremptory. Except in case of wilful wrongdoing or gross negligence, SELLER will not reimburse possible damages, either direct or indirect, suffered by CLIENT as a result of delay in the delivery of the Products.

In no case of delay in the delivery of the Products shall CLIENT be entitled to terminate the Sale Contract.

4.4 Upon receipt of the Products, CLIENT must report possible damages occurred to the packaging and/or shortages or anomalies of the Products occurred during the transport, by notifying details of such events on the transportation document, and must also:

a) have such notification countersigned by the carrier; and

b) immediately inform SELLER thereof, in writing, and send SELLER a copy of the countersigned document by and no later than 8 (eight) day(s) from the date of receipt of the Products.

Should this not be the case, SELLER shall not be responsible for possible damages losses or theft of the Products occurred during the transport, even if transport risks were, in whole or in part, upon SELLER.

5) Prices – Payment – Late Payment

5.1 The Products shall be supplied at the prices agreed between the parties in the Sale Contract or, should no prices be mentioned in the Sale Contract, at the prices resulting from the price list of SELLER in force when the Sale Contract has been executed. Unless otherwise stated in writing, the prices of the Products included in SELLER's price lists, quotations and/or offers are in Euro, net of VAT and for delivery according to the Incoterms® ICC rule, latest version, Ex-Works (EXW) - premises of SELLER indicated in the Sale Contract. Therefore, should a different Incoterms® rule be agreed upon between the parties for the delivery of the Products, the invoiced amount shall be modified accordingly, including in the sale invoice transportation expenses and any other costs connected with the Incoterms® rule agreed between for delivery.

5.2 CLIENT shall pay for the Products in accordance with the payments methods and terms provided for in the Sale Contract or otherwise agreed upon in writing between the parties. No payment shall be considered as being made by CLIENT until the relative amount has been credited to the bank account of SELLER.

Payment shall be executed by CLIENT in Euro or in the currency of the place where CLIENT has its registered office, at SELLER's discretion, in accordance with the currency indicated by SELLER in the related sale invoice.

5.3 If CLIENT is delinquent in its payment obligation, SELLER may:

a) obtain payment of late payment interest in accordance with the applicable law; and

b) withhold ongoing and future deliveries, upon written notice to CLIENT, until all delinquent amounts and late payment interest are fully paid.

5.4 If delinquent amounts and late payment interest remain unpaid 30 (thirty) days after the agreed deadline for payment, then SELLER may also, at its option, alternatively or cumulatively, and in addition to any other right or remedy available at law or pursuant to these General Conditions:

a) request accelerated payment of any and all remaining payments and declare due the total outstanding balance, even if payment by instalment or deferred payment has been agreed upon and/or bills of exchange, promissory notes, cheques or other payment documents have been issued and are falling due;

b) terminate the Sale Contract in question and definitively withhold any amount received in regard to

such Sale Contract or to other Sale Contracts, offsetting the CLIENT's outstanding debt against any and all sums already paid by CLIENT;

c) carry out future deliveries of Products on a pre-payment basis only, also with reference to supplies still to be executed;

d) cancel discounts and bonuses that may have been agreed between the parties also with reference to Sale Contracts already regularly executed.

5.5 SELLER shall be entitled to exercise the rights mentioned in paragraphs 5.3 and 5.4 above also in case:

a) CLIENT is undergoing winding-up, bankruptcy, debt restructuring or enforcement proceedings;

b) the insurance company of SELLER refuses insurance coverage for SELLER's credits toward CLIENT;

c) CLIENT is undergoing financial difficulties able to hinder the regular execution of its payment obligations resulting from, by way of example only, missed payment of bills of exchange, promissory notes, cheques or other payment documents, reduction of granted guarantees and/or missed granting of promised guarantees, as well as from any amount resulting unpaid, even though such circumstances have occurred with other suppliers of CLIENT.

5.6 CLIENT cannot claim any breach of contract by SELLER, nor can CLIENT start any lawsuit or action against SELLER, until any amount resulting due to SELLER under paragraphs 5.3 and 5.4 above has been paid in full by CLIENT.

6) Retention of Title

6.1 SELLER will maintain exclusive ownership over the Products sold until their price has been entirely paid by CLIENT.

Without prejudice to the above the risks of loss of the Products shall be regulated by the Incoterms® rule agreed between the parties for the delivery of the Products.

6.2 In case of non-fulfilment or late fulfilment of the obligation to pay the price of the Products, without prejudice to the rights under paragraphs 5.4, 5.5 and 5.6, SELLER shall be entitled to enter the premises where the Products are held, re-possess the Products and withhold, as liquidated damages, any amount already paid by CLIENT with reference to such Products.

7) Warranty

7.1 Without prejudice to the provisions of paragraphs 2.1, 2.2, 2.4 and 3.6 with reference to the modifications to the Products and tolerances, SELLER warrants that the Products will conform to the Sale Contract, to the classification indicated in the technical manuals, catalogues and/or price lists of SELLER and that they will be free from manufacturing defects.

The warranty period is 12 (twelve) months from the date of collection of the Products from the premises of SELLER, regardless of the agreed Incoterms® rule for delivery.

a) chromatic alterations and tone differences of the Products;

b) the Products identified in the Sale Contract as Products of quality lower than first-quality Products or as close-out sale Products or as special batches;

c) the Products applied and/or set up not in compliance with the industry standards applicable to the same;

d) the Products used or applied on surfaces and/or in spaces or environments different from those indicated by SELLER;

e) the Products used not in compliance with the instructions and/or indications provided by SELLER included in the catalogues and price lists of SELLER or in other way communicated to CLIENT by SELLER, included the instructions under paragraph 2.2;

h) characteristics of the Products as resulting from the classification of the pottery (i) executed by control and/or certification authorities other than authorities of the European Union Member States, and/or (ii) executed on the basis of criteria other than those used by SELLER.

7.3 Without prejudice to the provisions of paragraph 4.4 above, CLIENT shall inspect the Products as soon as possible and shall notify SELLER in writing of possible non-conformities or defects, by fax or email, within

and no later than the following terms; failing to do so will result in the lapse of the warranty and the unenforceability of the warranty rights:

a) differences in type or quantity with respect to type or quantity agreed as well as other patent non-conformities or defects of the Products: 8 (eight) days from the delivery of the Products at the premises of CLIENT and, in any case, before application of the Products;

b) hidden non-conformities or defects of the Products: 8 (eight) days from the discovery of the same and, for avoidance of doubt, within the warranty period.

7.4 SELLER will have the right to examine the Products, or samples of the Products, which CLIENT claims to be non-conforming or defective, in order to verify the instructions relating to the set up and/or application of the Products and/or the use of the Products in accordance with the provisions of these General Conditions. In this respect, CLIENT shall be entitled to return to SELLER the Products that CLIENT considers to be non-conforming or defective only upon SELLER's written authorization and only on the condition that CLIENT bears all costs and risks for the shipment of the Products. The authorization to return the Products or samples of the purportedly non-conforming or defective Products shall never be interpreted as an acknowledgment of the claimed non-conformities or defects on the part of SELLER.

7.5 In case the Products are ascertained by SELLER as actually non-conforming or defective, CLIENT will be entitled only to obtain, at the SELLER's option:

a) replacement of the non-conforming or defective Products; or

b) partial or full exemption from payment of their price, depending on the seriousness of the non-conformities or of the defects.

7.6 For the purpose of paragraph 7.5 letter (a), the Products to be delivered in replacement of non-conforming or defective Products shall be delivered to CLIENT in accordance with the Incoterms® 2010 ICC rule DDP - premises of CLIENT. The Products that have been replaced shall be, at SELLER's discretion, destroyed or disposed of by CLIENT, at its own costs, or returned to SELLER, at costs of SELLER. In case the Products are to be destroyed or disposed of by CLIENT, CLIENT undertakes to send to SELLER the proof of destruction or of disposal of the Products, along with the documents proving the costs borne by CLIENT for the destruction or the disposal of the same.

7.7 The rights and remedies described in paragraphs 7.5 and 7.6 above are the sole warranty rights and remedies granted to CLIENT. To the maximum extent permitted by the applicable law, any other liability and obligation of SELLER, which may in any way arise from or in relation to the supply of non-conforming or defective Products - including, but not limited to, compensation for direct or indirect or consequential damages, loss of profits, etc. connected to such liability - is expressly excluded.

7.8 The present warranty is in substitution for, and excludes, any other warranty, express or implied, set forth by the law or otherwise.

8) Force Majeure

8.1 SELLER shall not be liable or responsible for failure or delay in performing or fulfilling any obligations undertaken in reference to the supply of Products when such failure or delay is due to the occurrence of an event of force majeure such as wars, fires, earthquakes, floods, tsunamis, strikes, labor or employment difficulties, shortage or procurement difficulties of raw materials, restriction on the use of power, suspension or difficulties in the transports, breakdown of the plants, acts of public authorities or any other event or cause whatsoever, similar or dissimilar, which cannot reasonably be forecast or provided against and which cannot be overcome by SELLER with reasonable diligence.

9) Severability

The invalidity or unenforceability of any provision, or portion thereof, of this General Conditions shall

not affect the validity or enforceability of any other provision.

10) Confidentiality

10.1 CLIENT undertakes: (i) to treat with the utmost confidentiality all the information/data/designs/know-how/documentation transmitted by SELLER or that it may come to know in connection with the execution of any Sale Contract, even if they are not marked or identified as secret or confidential ("Confidential Information"); (ii) not to, wholly or partially, disclose to or inform third parties of the Confidential Information, without the SELLER's prior written consent; (iii) to limit the use of the Confidential Information and the access to the same for purposes relating to the execution of the sale Contracts; (iv) to adopt any and all measures required in order for its employees and collaborators do not disclose the Confidential Information to third parties or use it in an inappropriate way.

The seat of arbitration shall be, and the award shall be delivered in, Milan (Italy).

The language to be used in the arbitral proceedings shall be English.

11.3 Irrespective of the provisions above, it is hereby granted exclusively to SELLER the right to initiate legal proceedings under the jurisdiction of CLIENT before the competent court.
