*Bellezza e versatilità.
La collezione da rivestimento
Stoneart è ispirata
all'eleganza della pietra
Limestone e si presta
a svariate modalità di
impiego. Negli ambienti
bagno trasmette un'istintiva
sensazione di benessere, nei
living crea suggestive pareti
decorative e negli spazi
pubblici quali Spa o attività
commerciali assicura il giusto
mix tra comfort e respiro
contemporaneo.*

Beauty and versatility. The Stoneart wall covering collection is inspired by the elegance of limestone and can be used in various different ways. In bathrooms it transmits an instinctive sensation of wellbeing, in living rooms it creates evocative decorated walls, and in public spaces, such as spas or commercial concerns, it guarantees the perfect blend of comfort and contemporary appeal.

Beauté et polyvalence. La collection de revêtement mural Stoneart s'inspire de l'élégance de la pierre calcaire qui se prête à de multiples applications. Dans les salles de bains, elle crée instinctivement une sensation de bien-être. Dans les salons, elle orne les murs de décorations évocatrices et dans les espaces publics tels que les Spas ou les locaux commerciaux, elle garantit une association équilibrée entre confort et esprit contemporain.

Schönheit und Vielseitigkeit. Die Wandfliesenkollektion Stoneart ist von der Eleganz des Kalksteins inspiriert und für vielfältige Anwendungen geeignet. Im Bad lässt sie instinktiv ein Wohlgefühl aufkommen, im Wohnzimmer besticht sie mit dekorativen Wandgestaltungen und in öffentlichen Bereichen wie Spas oder Geschäften bietet sie einen ausgewogenen Mix aus Komfort und Moderne.

Belleza y versatilidad. La colección de revestimiento Stoneart se inspira en la elegancia de la piedra caliza y se presta a un sinfín de aplicaciones. En los espacios del baño transmite una instintiva sensación de bienestar, en las salas de estar crea sugestivas paredes decorativas y en ámbitos públicos, como spas o locales comerciales, asegura la mezcla adecuada entre comodidad y aire contemporáneo.

Красота и универсальность. Коллекция облицовочной плитки Stoneart черпает вдохновение в элегантности известняка и подходит для многочисленных вариантов применения. В ванной комнате она передает инстинктивное ощущение велнеса, в гостиной коллекция оформляет привлекательные декоративные стены, а на таких общественных объектах, как СПА или торговые помещения, она создает удачную смесь комфорта и современного духа.

Il colore Steel comunica un istintivo senso di relax. E con le varianti Decoro Texture e Mosaico rievoca il fascino millenario della lavorazione della pietra.

La couleur Steel communique spontanément une sensation de détente. Et avec les variantes décor Texture et Mosaico, elle fait revivre le charme millénaire du travail de la pierre.

Die Farbe Steel vermittelt ein entspannendes Wohlgefühl. In den Dekorvarianten Texture und Mosaico zitiert sie die uralte Faszination von Arbeiten in Stein.

El color Steel comunica una instintiva sensación de relax. Y con las variantes decorativas Texture y Mosaico evoca el encanto milenario de la elaboración de la piedra.

The Steel colour communicates an instinctive sensation of relaxation. And with the decorative variants, Texture and Mosaico, it re-evokes the time-honoured charm of stonemasonry.

Расцветка Steel создает инстинктивное ощущение расслабленности. Вместе с вариантами декора "текстура" (Texture) и "мозаика" (Mosaico) воссоздает тысячелетнее очарование, связанное с процессом обработки камня.

(quality and environment)

Qualità per Marazzi significa qualità di prodotto, di processo e sostenibilità ambientale, attenzioni che hanno permesso all'azienda di certificare i propri sistemi e i propri prodotti.

La qualità ecologica dell'intero ciclo industriale parte dalle materie prime estratte da cave che operano nel rispetto delle direttive ambientali per la tutela dell'habitat.

Durante il processo di produzione Marazzi adotta sistemi di raccolta e riutilizzo degli scarti e delle acque di lavorazione, limitando così il consumo di risorse naturali.

Le emissioni in atmosfera di tutte le fasi vengono controllate con idonei sistemi di abbattimento, non sono presenti scarichi di acque industriali e, grazie al recupero del calore e all'autoproduzione di energia, i consumi energetici risultano ottimizzati.

Infine i rifiuti prodotti vengono raccolti e inviati al recupero presso aziende autorizzate.

Marazzi, al fianco di ingegneri e architetti, progetta e realizza sistemi in ceramica innovativi in grado di migliorare la qualità della vita delle persone e il loro rapporto con l'ambiente che le circonda.

For Marazzi, quality means quality of product, process and environmental sustainability, priorities that have enabled the firm to certify its systems and products.

The environmental quality of the entire industrial cycle starts from the raw materials, taken from quarries that operate in accordance with environmental directives on habitat protection. During the production process, Marazzi uses systems that collect and reuse waste and processing water to limit the consumption of natural resources.

Atmospheric emissions from all phases are controlled by means of suitable scrubbing systems, no industrial effluents are discharged, and heat recovery and in-house energy generation optimise energy consumption. Last but not least, the waste produced is collected and sent for recovery by authorised firms. Marazzi works with engineers and architects on the design and realisation of innovative ceramic systems capable of improving people's quality of life and their relations with their surrounding environment.

Le mot « Qualité » pour Marazzi signifie qualité de produit, qualité de processus et durabilité environnementale, autant de caractéristiques qui ont permis à la société de certifier ses systèmes et ses produits.

(soluzioni di posa)

INSTALLATION OPTIONS / SOLUTIONS DE POSE / VERLEGEMÖGLICHKEITEN / SOLUCIONES DE COLOCACIÓN / ВАРИАНТЫ УКЛАДКИ

La posa raccomandata è orizzontale, con fuga tono su tono. Si sconsiglia di posare affiancati sulla stessa parete fondi e strutture. Resta a cura del posatore in cantiere la possibilità di jollare il fondo, smussando i bordi a 45°, per rivestire volumi architettonici.

Tiles should be laid horizontal, with tone-on-tone joints. Plain and structured tiles should not be laid side-by-side on the same wall. During installation, the tile layer may bevel the edges of the plain tile to 45° in order to clad architectural features.

Il est recommandé de poser le produit à l'horizontale, avec un joint ton sur ton. Il est déconseillé de poser côte à côte, sur le même mur, les fonds et les structures. Sur le chantier, le carreleur peut reprendre en épaisseur le fond en émoussant les bords à 45° pour couvrir les volumes architecturaux.

Es wird die waagerechte Verlegung empfohlen. Die Fugenmasse sollte Ton in Ton abgestimmt werden. Grundfliesen und Relieffliesen sollten nicht nebeneinander an derselben Wand verlegt werden. Der Fliesenverleger kann die Kanten der Grundfliese zur Verkleidung von Ecken vor Ort auf 45 Grad abschleifen.

La colocación que se recomienda es la horizontal, dejando juntas tono sobre tono. Se desaconseja colocar yuxtapuestos en la misma pared los fondos y las estructuras. El solador, en la obra, decidirá si desbastar el fondo biselando los bordes a 45 grados para revestir volúmenes arquitectónicos.

Рекомендуемая укладка - горизонтальная с швом тон в тон. Рекомендуется укладывать совмещенно на одной стене фоновые и структурные плитки. Во время строительства плиточник может скашивать кромки фоновых плит под 45° для облицовки архитектурных объемов.
