*Marazzi presenta Materika,  
un nuovo formato 40x120 a  
spessore sottile disponibile in  
cinque colori naturali e in due  
strutture 3D che conferiscono  
alle pareti dinamicità e  
continuità visiva.  
Una collezione innovativa  
premiata dall'Associazione  
per il Disegno Industriale con  
il Ceramics Design Award  
2015.*

Marazzi presents Materika,  
a new 40x120 size in  
slimline thickness, available  
in five natural colours and  
two 3D structures that give  
walls dynamism and visual  
continuity.  
An innovative collection  
which has received the ADI  
(Italian Industrial Design  
Association) Ceramics  
Design Award 2015.

Marazzi présente Materika,  
un nouveau format en 40  
x120 de faible épaisseur,  
disponible en cinq couleurs  
naturelles et en deux  
structures 3D qui confèrent  
aux murs un rendu  
dynamique et une continuité  
visuelle.  
Une collection novatrice,  
lauréate du prix Ceramics  
Design Award 2015 décerné  
par l'Association pour le  
design industriel.

Marazzi präsentiert Materika  
im neuen Format 40x120  
mit extraflacher Dicke in  
fünf natürlichen Farben  
und zwei 3D-Reliefs, die  
den Wandflächen eine  
dynamische, einheitliche  
Optik verleihen.  
Die innovative Kollektion  
wurde vom italienischen  
Fachverband für  
Industriedesign ADI mit dem  
Ceramics Design Award  
2015 ausgezeichnet.

Marazzi presenta Materika,  
un nuevo formato de  
40x120, de grosor reducido,  
disponible en cinco colores  
naturales y dos estructuras  
tridimensionales que otorgan  
dinamismo y continuidad  
visual a las paredes.  
Es una colección innovadora  
que ha sido galardonada con  
el Ceramics Design Award  
2015 de la ADI (Asociación  
Italiana para el Diseño  
Industrial).

Marazzi представляет  
Materika - новый формат  
40x120 небольшой  
толщины, который  
может быть пяти  
натуральных цветов  
и с двумя объемными  
структурами, придающими  
стенам динамичность  
и визуальную  
поступательность.  
Инновационная коллекция,  
которой Ассоциация  
промышленного дизайна  
(ADI) присудила приз  
Ceramics Design Award  
2015.

## ( quality and environment )

*Qualità per Marazzi significa qualità di prodotto, di processo e sostenibilità ambientale, attenzioni che hanno permesso all'azienda di certificare i propri sistemi e i propri prodotti.*

*La qualità ecologica dell'intero ciclo industriale parte dalle materie prime estratte da cave che operano nel rispetto delle direttive ambientali per la tutela dell'habitat.*

*Durante il processo di produzione Marazzi adotta sistemi di raccolta e riutilizzo degli scarti e delle acque di lavorazione, limitando così il consumo di risorse naturali.*

*Le emissioni in atmosfera di tutte le fasi vengono controllate con idonei sistemi di abbattimento, non sono presenti scarichi di acque industriali e, grazie al recupero del calore e all'autoproduzione di energia, i consumi energetici risultano ottimizzati.*

*Infine i rifiuti prodotti vengono raccolti e inviati al recupero presso aziende autorizzate. Marazzi, al fianco di ingegneri e architetti, progetta e realizza sistemi in ceramica innovativi in grado di migliorare la qualità della vita delle persone e il loro rapporto con l'ambiente che le circonda.*

For Marazzi, quality means quality of product, process and environmental sustainability, priorities that have enabled the firm to certify its systems and products.

The environmental quality of the entire industrial cycle starts from the raw materials, taken from quarries that operate in accordance with environmental directives on habitat protection. During the production process, Marazzi uses systems that collect and reuse waste and processing water to limit the consumption of natural resources.

Atmospheric emissions from all phases are controlled by means of suitable scrubbing systems, no industrial effluents are discharged, and heat recovery and in-house energy generation optimise energy consumption. Last but not least, the waste produced is collected and sent for recovery by authorised firms. Marazzi works with engineers and architects on the design and realisation of innovative ceramic systems capable of improving people's quality of life and their relations with their surrounding environment.

Le mot « Qualité » pour Marazzi signifie qualité de produit, qualité de processus et durabilité environnementale, autant de caractéristiques qui ont permis à la société de certifier ses systèmes et ses produits.

The environmental quality of the entire industrial cycle starts from the raw materials, taken from quarries that operate in accordance with environmental directives on habitat protection. During the production process, Marazzi uses systems that collect and reuse waste and processing water to limit the consumption of natural resources.

# (soluzioni di posa)

INSTALLATION OPTIONS / SOLUTIONS DE POSE / VERLEGEMÖGLICHKEITEN / SOLUCIONES DE COLOCACIÓN / ВАРИАНТЫ УКЛАДКИ

La posa raccomandata è orizzontale, con fuga tono su tono.  
Si sconsiglia di posare affiancati sulla stessa parete fondi e strutture.  
Resta a cura del posatore in cantiere la possibilità di jollare il fondo, smussando i bordi a 45°, per rivestire volumi architettonici.

Tiles should be laid horizontal, with tone-on-tone joints.  
Plain and structured tiles should not be laid side-by-side on the same wall.  
During installation, the tile layer may bevel the edges of the plain tile to 45° in order to clad architectural features.

Il est recommandé de poser le produit à l'horizontale, avec un joint ton sur ton.  
Il est déconseillé de poser côte à côte, sur le même mur, les fonds et les structures.  
Sur le chantier, le carreleur peut reprendre en épaisseur le fond en émoussant les bords à 45° pour couvrir les volumes architecturaux.

Es wird die waagerechte Verlegung empfohlen. Die Fugenmasse sollte Ton in Ton abgestimmt werden.  
Grundfliesen und Relieffliesen sollten nicht nebeneinander an derselben Wand verlegt werden.  
Der Fliesenverleger kann die Kanten der Grundfliese zur Verkleidung von Ecken vor Ort auf 45 Grad abschleifen.

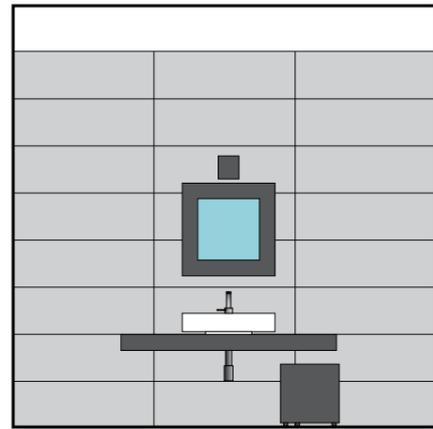

La colocación que se recomienda es la horizontal, dejando juntas tono sobre tono.  
Se desaconseja colocar yuxtapuestos en la misma pared los fondos y las estructuras.  
El solador, en la obra, decidirá si desbastar el fondo biselando los bordes a 45 grados para revestir volúmenes arquitectónicos.

Рекомендуемая укладка - горизонтальная с швом тон в тон.  
Рекомендуется укладывать совмещенно на одной стене фоновые и структурные плитки.  
Во время строительства плиточник может скашивать кромки фоновых плит под 45° для облицовки архитектурных объемов.
