A fascination with wood.

© Ceramiche Atlas Concorde

Exence features the natural look of Italian oak, strictly faithful to the colors and shades of the original material. The Saw Cut look brings out the earthiness and aged appearance of wood marked by the passage of the saw blade.

Exence vede protagonista l'effetto rovere italiano, in versione naturale, estremamente rigoroso e fedele alle cromie e alle sfumature dell'essenza originale; Saw Cut, capace di esprimere forte matericità e restituire l'aspetto vissuto del legno con i segni irregolari lasciati dalla lavorazione, "taglio sega".

Le protagoniste d'Exence est l'effet chêne italien, en version naturelle, extrêmement rigoureux et fidèle aux teintes et aux nuances de l'essence originale, tandis que Saw Cut, capable de traduire la puissance de la matière, offre l'aspect usé du bois avec les signes irréguliers laissés par l'usinage en "dents de scie".

Im Mittelpunkt von Exence steht die italienische Eiche in ihrer ganzen Natürlichkeit, deren originale Farben und Nuancen extrem detailgetreu nachempfunden sind. Die Ausführung Saw Cut bringt mit dem „gelebten“ Aussehen des Holzes und den unregelmäßigen Spuren der Sägebearbeitung die Besonderheit des Materials perfekt und intensiv zum Ausdruck.

Con la serie Exence cobra protagonismo la imitación madera roble italiana, en la versión natural, extremadamente rigurosa y fiel a las cromías y gradaciones de la materia original; Saw Cut, expresa una fuerte matericidad y elegancia restituyendo de forma realista el aspecto desgastado de la madera con las irregularidades dejadas por la elaboración "corte de sierra".

Exence предлагает рисунок натуральной древесины итальянского дуба, который с невероятной точностью передает все цвета и оттенки исходного природного материала. Поверхность Saw Cut имеет выраженную фактурность и приятный состаренный вид с неровностями, оставленными распилом.

Strong aesthetic appeal of the wood effect. Simple look. Warm shades inspired by the essence of oak. These are some of the traits that distinguish the Exence collection, which will create contemporary environments that recall the traditions of another time without sacrificing elegance.

Forte appeal estetico dell'effetto legno. Look essenziale. Tonalità calde ispirate all'essenza del rovere. Sono questi alcuni tratti di stile che caratterizzano la collezione Exence, da cui nascono ambienti contemporanei all'insegna della tradizione, senza rinunciare ad eleganti suggestioni.

Grand charme esthétique de l'effet bois. Look minimaliste. Tonalités chaudes qui s'inspirent de l'essence du chêne. Ce ne sont que quelques aspects du style distinctif qui caractérisent la collection Exence, qui permet de créer des espaces contemporains sous le signe de la tradition, sans renoncer aux suggestions élégantes.

Die ganze Anziehungskraft der Holzoptik. Ein auf das Wesentliche beschränkter Look. Die warmen Farbtöne der Eiche. Das sind einige der Stilmerkmale, die die Kollektion Exence auszeichnen. Sie lässt zeitgemäße Räume entstehen, die in der Tradition verwurzelt sind, aber nicht auf elegante Akzente verzichten.

Destila la belleza estética del efecto madera. Look minimalista. Tonificaciones cálidas inspiradas en la esencia de la madera roble. Estos son algunos de los elementos de estilo que caracterizan la colección Exence, dando vida a ambientes contemporáneos fieles a la tradición sin renunciar a la elegancia, diseño y funcionalidad.

Неотразимая привлекательность рисунка дерева. Благородно простой вид. Теплые тона дуба. Именно эти особенности коллекции Exence помогают создать стильные современные интерьеры, в которых ощущается приятное звучание традиций и изысканная элегантная нота.

Included in the collection's selection of decorative pieces, Chevron is a great classic for those wanting a herringbone installation. The design – a contemporary interpretation of traditional vintage floors – makes it possible to produce dynamic, captivating patterns.

Tra le proposte dell'apparato decorativo della collezione, Chevron rappresenta un grande classico della posa a spina di pesce. Con il suo disegno, che reinterpreta in chiave contemporanea quello dei pavimenti d'epoca tradizionale, compone pattern dinamici, che catturano lo sguardo.

Parmi les propositions du système décoratif de la collection, Chevron représente un grand classique de la pose en forme de V. Son dessin réinterprète les sols traditionnels d'époque en clé contemporaine et crée des motifs dynamiques qui captent le regard.

Eines der Dekore der Kollektion ist Chevron, ein großer Klassiker des Fischgrätmotivs. Mit seinem Muster, einer zeitgemäßen Neuinterpretation des Motivs traditioneller Bodenbeläge, entstehen dynamische Effekte, die als Blickfang dienen.

Entre las propuestas decorativas de la colección, Chevron representa un gran clásico de la colocación en espina de pez. Con su movimiento gráfico que interpreta en clave moderna el pavimento de época tradicional, compone pattern dinámicos que atrapan la mirada.

Декор Chevron, включенный в гамму декоративных элементов коллекции, предназначен для елочной схемы укладки, давно ставшей классикой. Получаемый рисунок пересматривает в современном ключе старые традиционные полы, привлекая взгляд стильным динамизмом.

In the Saw Cut version, Exence boosts the natural character of the wall tile by replicating the uneven effect of traditional cuts made from a blade. The open space of the dining environment is enhanced by the evocative relationship between light and the soft nuances of the Almond color variant.

Nella versione Saw Cut, Exence accentua la naturalità del rivestimento, restituendo l'effetto irregolare della lavorazione tradizionale a "taglio sega". L'open space dell'ambiente dining è valorizzato dal rapporto evocativo tra la luce e le morbide sfumature della variante colore Almond.

In der Version Saw Cut unterstreicht Exence die Natürlichkeit des Wandbelags durch die traditionell anmutende und wie gesägt aussehende unregelmäßige Optik. Der offene Essbereich kommt durch den Dialog zwischen dem Licht und den weichen Nuancen der Farbvariante Almond besonders gut zur Geltung.

Dans la version Saw Cut, Exence accentue l'inspiration naturelle du revêtement qui reproduit l'effet irrégulier de l'usinage traditionnel en "dents de scie". L'open space du dining est valorisé par le rapport entre la lumière et les nuances délicates de la teinte Almond.

La colección Exence en la versión Saw Cut intensifica la naturalidad del revestimiento, restituyendo el efecto irregular de la elaboración tradicional "corte de sierra". El open space del ambiente dining está valorizado por la relación entre la luz y los matices esfumados del color Almond.

В варианте поверхности Saw Cut коллекция Exence передает неровности, остающиеся на древесине после распила. Эффект простора в столовой комнате усилен изобилием света и мягкими оттенками цвета Almond.

Wellness reloaded.

Natural wood – which in Nordic tradition defines environments dedicated to taking care of oneself – was the inspiration for wellness spaces promoting harmony of the body and spirit. The Saw Cut version of Exence Amber accentuates the natural character of the effect and the irregularity of the texture.

Dal legno naturale, che nella tradizione nordica definisce gli spazi dedicati alla cura del sé, è nata l'ispirazione per progettare ambienti wellness dove ritrovare l'armonia tra corpo e spirito. La versione Saw Cut di Exence Amber accentua la naturalità dell'effetto con l'irregolarità della texture.

C'est à partir du bois naturel, qui dans la tradition nordique définit les espaces dédiés au bien-être, qu'est née l'inspiration pour concevoir des espaces où retrouver l'harmonie entre le corps et l'esprit. La version Saw Cut d'Exence Amber accentue le naturel de l'effet avec l'irrégularité de la texture.

Vom Naturholz, das in der Tradition des Nordens von jeher Räume wie Saunas und Bäder kleidet, stammt die Inspiration für Wellness-Räume, in denen wir die Harmonie zwischen Körper und Geist wiederfinden. Die Version Saw Cut von Exence Amber akzentuiert die natürliche Wirkung durch ihre unregelmäßige Struktur.

En la tradición nórdica los espacios dedicados al cuidado del cuerpo están diseñados a partir de la madera natural, materia inspiradora de proyectos que confieren pureza y autenticidad a estancias dedicadas al bienestar, portadoras de armonía entre el cuerpo y el espíritu. La versión Saw Cut de Exence Amber intensifica la naturaleza del efecto con las irregularidades de la textura.

Традиционно в скандинавских странах основным материалом для отделки помещений, отведенных для ухода за собой, является натуральное дерево. Его имитацию мы использовали в оформлении современного велнес-пространства, помогающего приятно восстановить гармонию души и тела. Поверхность Saw Cut цвета Amber подчеркивает натуральность рисунка естественной неровностью фактуры.

The evolution of ceramic surfaces.

The constant research of Atlas Concorde Laboratories has led to the creation of Sensitech, the porcelain tile surface made using a production method patented in Italy. Sensitech is a high-tech surface for interiors that combines high slip resistance with an unrivaled soft touch, which also makes it resistant to dirt and easier to clean. With Sensitech the meaning of surface evolves and takes on a reassuring, protective, and pleasantly refined touch, making architectural spaces increasingly comfortable and appealing.

Dalla costante ricerca dei Laboratori Atlas Concorde nasce Sensitech, la superficie in gres porcellanato realizzata con metodo produttivo brevettato in Italia. Una superficie ad alto coefficiente tecnologico per gli ambienti interni, in grado di coniugare elevate prestazioni di resistenza allo scivolamento ad un'inedita morbidezza tattile, che la rende anche resistente allo sporco e più facile da pulire. Con Sensitech il significato di superficie si evolve e assume un tocco rassicurante, protettivo e piacevolmente raffinato, rendendo gli spazi architettonici sempre più confortevoli ed appaganti.

La recherche constante des Laboratoires Atlas Concorde a créé Sensitech, la surface en grès cérame pour intérieur réalisée avec un procédé de fabrication breveté en Italie. Avec Sensitech, c'est l'acception même d'une surface qui évolue en offrant une caractéristique rassurante, protectrice et agréablement raffinée, qui rend les espaces architecturaux de plus en plus confortables et agréables à vivre.

Durch kontinuierliche Forschung der Atlas Concorde Laboratorien entsteht Sensitech, die Feinsteinzeugoberfläche, die mit einem in Italien patentierten Herstellungsverfahren produziert wird. Eine Hightec-Oberfläche für Innenräume, die hohe Rutschfestigkeit mit unerwartet weicher Haptik verbindet, welche sie auch schmutzunempfindlicher und reinigungsfreundlicher macht. Mit Sensitech erreicht die Oberfläche ein ganz neues Niveau in Sachen Zuverlässigkeit, Schutz und Schönheit. Und macht damit unsere Räumlichkeiten noch attraktiver und komfortabler.

De la constante investigación de los Laboratorios Atlas Concorde nace Sensitech, la superficie de gres porcelánico para interiores realizada con un método de producción patentado en Italia. Una superficie de alto coeficiente tecnológico capaz de combinar un alto rendimiento de resistencia al deslizamiento con una suavidad táctil sin precedentes, que además la vuelve resistente a la suciedad y más fácil de limpiar. Con Sensitech, el significado de la superficie evoluciona y adquiere un toque tranquilizador, protector y agradablemente refinado, haciendo que los espacios arquitectónicos sean cada vez más cómodos y satisfactorios.

В результате исследований, выполненных в лабораториях Atlas Concorde, появилась керамогранитная поверхность Sensitech.
