*Una palette di colori
essenziali determina il
codice cromatico della
collezione. Tinte unite chiare
ed omogenee proposte
in una finitura lucida e
satinata esprimono il rigore
del minimalismo senza
interferenze grafiche.
Le strutture tridimensionali
e i mosaici arricchiscono
le pareti con giochi di luce
naturale e conferiscono
personalità e carattere
all'intimità dell'abitare.*

The collection's colour code is established by a set of simple hues. Uniform, pale whole colours offered in glossy and satiny finishes express all the severe elegance of minimalism, with no graphic interference. The three-dimensional structures and mosaics decorate walls with the interplay of natural light and bring personality and character to the intimacy of living spaces.

Une palette de nuances essentielles définit le code couleur de la collection. Les teintes unies, claires et homogènes, en finition brillante et satinée, expriment la sobriété du minimalisme sans interférences graphiques. Les structures tridimensionnelles et les mosaïques embellissent les murs avec des jeux de lumière naturelle. L'espace domestique prend de la personnalité et du caractère.

Eine Palette schlichter Farben bestimmt die Farbgebung der Kollektion. Helle, unifarbene Töne in glänzender und seidenmatter Optik verkörpern die Strenge des Minimalismus ohne überlagerte Strukturierungen. 3D-Reliefs und Mosaik schmücken die Wände mit natürlichen Lichtspielen und verleihen dem häuslichen Ambiente eine eindrucksvolle, charakterstarke Optik.

Una paleta de colores esenciales determina el código cromático de la colección. Colores lisos claros y homogéneos propuestos en un acabado brillante y satinado expresan el rigor del minimalismo sin interferencias gráficas. Las estructuras tridimensionales y los mosaicos enriquecen las paredes con juegos de luz natural y confieren personalidad y carácter a la intimidad de la vivienda.

Цветовой стиль этой коллекции определяет палитра строгих тонов. Светлые и однотонные цвета предлагаются с глянцевой и сатирированной отделкой, выражая строгость минимализма без вмешательства графики. Объемные структуры и мозаика украшают стены естественной игрой света и придают индивидуальность и выраженный характер домашнему уюту.

(modern)

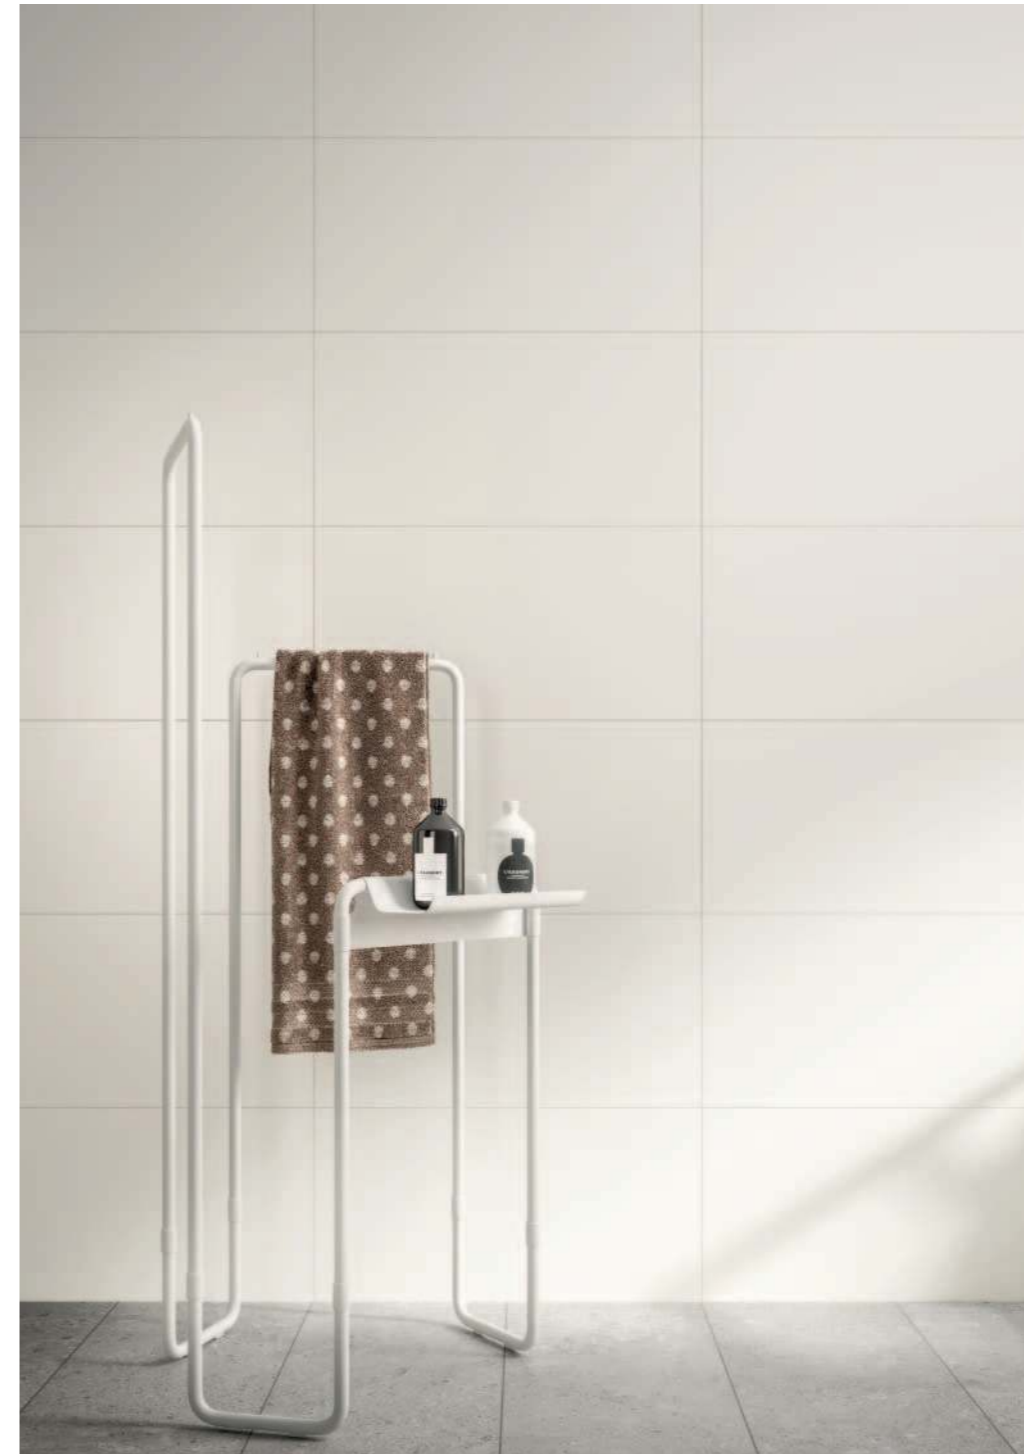

Contrasting materials to express a sophisticated solution that defines spaces geometrically, enriched by the random variation of the uneven 3D structures.

Des contrastes matières pour composer une sophistication qui donne aux espaces une cadence géométrique, exaltés par le mouvement fortuit généré par les formes irrégulières de la structure 3D.

Materialkontraste für eine elegante Raumgestaltung in einem geometrischen Stil, der durch das Zufallsmuster der unregelmäßigen Formen des 3D-Reliefs effektiv aufgelockert wird.

Materias en contraste, para expresar una solución sofisticada que define los espacios de manera geométrica, enriquecidas por el dinamismo aleatorio de las formas irregulares de la estructura tridimensional.

Materie a contrasto, per esprimere una soluzione sofisticata che definisce gli spazi in modo geometrico, arricchite dal movimento casuale delle forme irregolari della struttura 3D.

Контрастные материалы превращаются в изысканное решение, геометрически вычерчивающее пространство, и дополняются произвольным движением неправильных форм объемной структуры.

(natural)

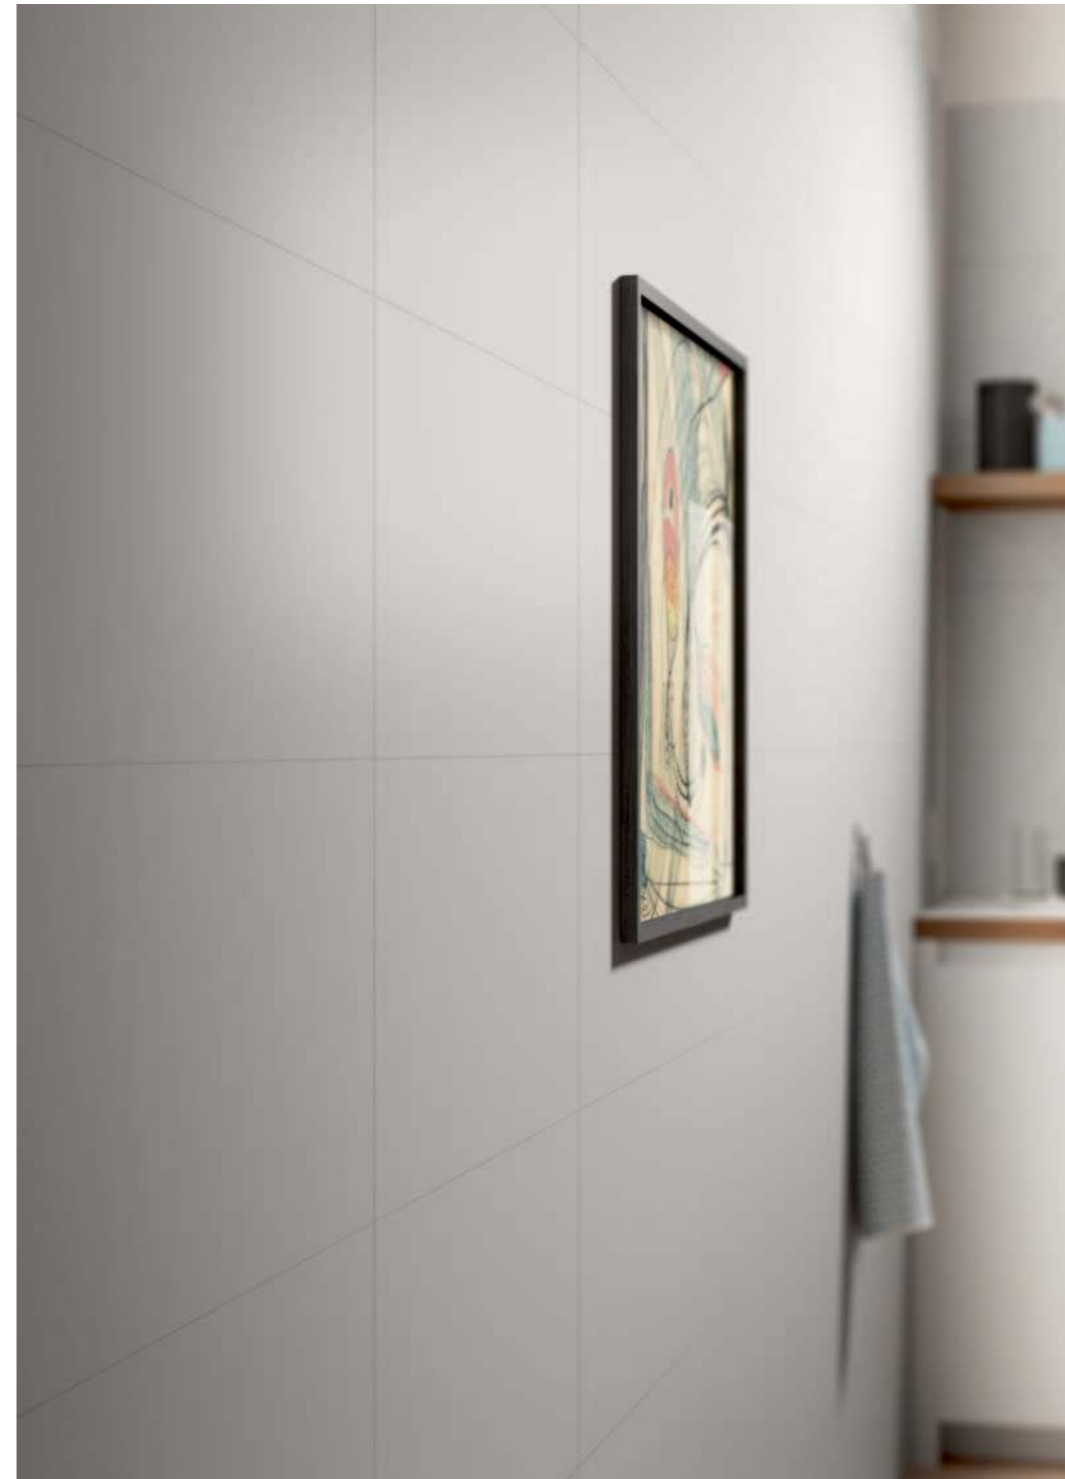

Stile contemporaneo nella cucina in cui il fondo si alterna alla struttura 3D che riproduce un movimento naturale.

Contemporary style in the kitchen with the plain tile alternating with the 3D structure for a natural variation.

Style contemporain dans la cuisine où le fond alterne avec la structure 3D qui reproduit un mouvement naturel.

Современный стиль на кухне, на которой фон чередуется с объемной структурой, создающей естественное движение.

Estilo contemporáneo en la cocina, en la que el fondo se alterna con la estructura tridimensional que reproduce un dinamismo natural.

Das abwechselnde Spiel zwischen der Grundfliese und dem 3D-Relief schafft eine natürliche Bewegung und wirkt stilprägend für eine moderne Küche.

(quality and environment)

Qualità per Marazzi significa qualità di prodotto, di processo e sostenibilità ambientale, attenzioni che hanno permesso all'azienda di certificare i propri sistemi e i propri prodotti.

La qualità ecologica dell'intero ciclo industriale parte dalle materie prime estratte da cave che operano nel rispetto delle direttive ambientali per la tutela dell'habitat.

Durante il processo di produzione Marazzi adotta sistemi di raccolta e riutilizzo degli scarti e delle acque di lavorazione, limitando così il consumo di risorse naturali.

Le emissioni in atmosfera di tutte le fasi vengono controllate con idonei sistemi di abbattimento, non sono presenti scarichi di acque industriali e, grazie al recupero del calore e all'autoproduzione di energia, i consumi energetici risultano ottimizzati.

Infine i rifiuti prodotti vengono raccolti e inviati al recupero presso aziende autorizzate. Marazzi, al fianco di ingegneri e architetti, progetta e realizza sistemi in ceramica innovativi in grado di migliorare la qualità della vita delle persone e il loro rapporto con l'ambiente che le circonda.

For Marazzi, quality means quality of product, process and environmental sustainability, priorities that have enabled the firm to certify its systems and products.

The environmental quality of the entire industrial cycle starts from the raw materials, taken from quarries that operate in accordance with environmental directives on habitat protection. During the production process, Marazzi uses systems that collect and reuse waste and processing water to limit the consumption of natural resources.

Atmospheric emissions from all phases are controlled by means of suitable scrubbing systems, no industrial effluents are discharged, and heat recovery and in-house energy generation optimise energy consumption. Last but not least, the waste produced is collected and sent for recovery by authorised firms. Marazzi works with engineers and architects on the design and realisation of innovative ceramic systems capable of improving people's quality of life and their relations with their surrounding environment.

Le mot « Qualité » pour Marazzi signifie qualité de produit, qualité de processus et durabilité environnementale, autant de caractéristiques qui ont permis à la société de certifier ses systèmes et ses produits.
